RISK DISCLOSURE STATEMENT

This Statement should be read carefully as it informs the Depositor of the potential risks involved in Enhanced Deposits ().

While the interest earned on an Enhanced Deposit () is generally intended to be higher than on a usual time deposit, there is also a higher risk involved regarding the yield of interest. Depending on the prevailing market interest rate, the interest yield on an Enhanced Deposit () may be less than what would have been obtained on a time deposit for the same period and, depending on the structure of an individual transaction, it is possible that no amount by way of return will be payable at all. The Account Holder should also note that the Enhanced Deposit () can be terminated at the option of the Bank. If the Enhanced Deposit () is called, the Account Holder may not be able to enjoy an equivalent investment rate return when reinvesting the funds. The Account Holder is advised to consult its own professional advisers for any concerns over the Enhanced Deposit. Please refer to the Key Facts Statement for further details.
