NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 30 JUNE 2025

12. Current Year Prospects

Malaysia's Gross Domestic Product ("GDP") in the first quarter of 2025 grew by 4.4% (4Q 2024: 4.9%). The decline was principally driven by a contraction in hydrocarbon output, signalling persistent structural vulnerabilities within the extractive industries. However, domestic economic activity remained resilient, supported by favourable labour market conditions and targeted fiscal measures. Besides, statutory wage adjustments and continued employment growth supported household consumption. Net exports contributed positively to growth, rising by 19.6% (4Q 2024: 63.6%), with gains driven by stronger shipments of electrical and electronics products. However, uncertainty surrounding Malaysia-US trade negotiations continues to weigh on the near-term export outlook.

The external landscape has grown increasingly complex amid intensifying geopolitical risks. Malaysia's accession to BRICS represents a significant realignment in its international economic positioning, potentially prompting retaliatory responses from traditional Western trading partners. These concerns are compounded by the re-election of Trump, and the reinstatement of broad-based US tariff regime with bilateral negotiations between Malaysia and the US remaining inconclusive, the threat of targeted trade actions remains elevated. These developments thus extend beyond short term trade headwinds, posing broader challenges to Malaysia's economic positioning and increasing the likelihood of externally amplified volatility.

Bank Negara Malaysia ("BNM")'s Monetary Policy Committee ("MPC") left Overnight Policy Rate ("OPR") unchanged at 3.00% for the 14th consecutive meetings since May 2023. As current monetary policy remains appropriate and supportive of sustainable economic growth amid price stability. The domestic economy remains resilient, underpinned by firm private consumption, ongoing investment activity, and a recovery in external demand. Headline and core inflation remain moderate, with limited evidence of demand-driven pressures. In view of continued global uncertainties, maintaining the current OPR level is deemed appropriate to safeguard macroeconomic stability while ensuring that monetary conditions remain accommodative to sustainable economic growth.

With the country's economic recovery continue to remain in traction, providing supportive environment for businesses, the Bank remains steadfast in building sustainable portfolio with inclusive growth and focuses on strengthening its business resilience. The Bank continues to maintain its business agenda with both Japanese and Non-Japanese clients while acknowledging the challenges ahead and continue to remain responsive to changing environment by adopting prudent approach in managing costs.

12. Current Year Prospects (Continued)

Islamic Finance Outlook

The Islamic Banking industry in Malaysia continues to grow in the first quarter of 2025, whereby in the month of March 2025 total Islamic Banking assets has grown to RM1,226.5 billion which was contributed mainly by stand-alone Islamic Banks recording a total assets of RM1,199.9 billion (97.8%), followed by Islamic Banking Window ("IBW") operations with a total assets of RM26.5 billion (2.2%). This is an increase of 0.88% from fourth quarter of 2024's total assets of RM1,1215.7 billion (stand-alone Islamic Banks' assets of RM1,189.4 billion and IBW assets of RM26.3 billion). Financing makes up the largest contribution at RM908.5 billion which is an increase of 1.3% from the fourth quarter of 2024 of RM897.1 billion.

The Bank's IBW has been in operation since early 2023 which has since offered Islamic financing products. Currently the Bank has also extended MYR green and sustainability facilities to new and existing clients.

The Bank is expecting to roll out Islamic Ringgit deposits in third quarter of this year to meet market demands for both Japanese and non-Japanese customers. Apart from that, the Bank will continously enhance Islamic Ringgit products covering Treasury and Trade Finance products and services. This development of products will be done in stages. This will ensure the Bank's new and existing clients will be able to enjoy a more comprehensive products and services, which are competitive and relevant to meet their business needs and requirements. Notwithstanding this, the current economic scenario locally and abroad, plus potential movement in the profit rate environment will have a direct impact on the demand for the Bank's products under ICBU and IBW.

(g) Shariah Committee

The Shariah Committee ("ShC") was established under BNM's Shariah Governance Policy Document ("the SGP").

The Board is ultimately responsible for the oversight over the functioning of the Bank's overall Shariah Governance structure and Shariah compliance. The ShC is supported on a functional basis by the Shariah Secretariat and the Shariah control functions namely Shariah Review, Shariah Risk Management and Shariah Audit.

The main duties and responsibilities of the Shariah Secretariat are to provide a secretariat function to the ShC, conducting research on Shariah issues and providing day-to-day Shariah advice to the Bank's internal parties based on the rulings of the BNM's SAC and the decisions or advice of the ShC.

Meanwhile, the Shariah Review function conducts regular assessments on the compliance of the Bank's operations, business, affairs and activities with Shariah requirements.

The Shariah Risk Management systematically assesses, measures, monitors, and reports Shariah non-compliance risks in the operations, business, affairs and activities of the Bank.

Finally, the Shariah Audit provides an independent assessment of the adequacy and effectiveness of the Bank's internal control, risk management systems, and governance processes. The Shariah Audit scope covers the overall compliance of the Bank's operations, business, affairs and activities with Shariah.

In addition to the above, the Management of SMBCMY is responsible for providing adequate resources across every function involved in Shariah governance implementation to ensure end-to-end compliance with Shariah principles. The Management expects the various functions to be responsible for and to manage the implementation of any or all rulings of the BNM's SAC and they are complying with the said policy.

As of March 2025, Shariah Committee ("ShC") comprises: Assoc. Prof. Dr. Abdul Manan bin Ismail, Wan Rizaidy bin W Mamat Saufi and Dr. Mohamad Rizal bin Mohamed Nor.
