NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 DECEMBER 2019

1. Basis of preparation

The unaudited condensed interim financial statements for the 3rd quarter and financial period ended 31 December 2019 have been prepared in accordance with the requirements of Malaysian Financial Reporting Standard ("MFRS") 134, *Interim Financial Reporting* issued by the Malaysian Accounting Standards Board ("MASB").

The unaudited condensed interim financial statements have been prepared under the historical cost convention except for the following assets and liabilities which are stated at fair values: financial assets and liabilities at fair value through profit or loss ("FVTPL"), financial assets at fair value through other comprehensive income ("FVOCI") and derivative financial instruments.

The unaudited condensed interim financial statements should be read in conjunction with the audited annual financial statements of the Bank for the financial year ended 31 March 2019. The explanatory notes attached to the unaudited condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Bank since the financial year ended 31 March 2019.

The unaudited condensed interim financial statements incorporated those activities relating to the Islamic banking business which have been undertaken by the Bank. Islamic banking business refers generally to the acceptance of deposits and granting of financing under the principles of Shariah.

The significant accounting policies and methods of computation applied in the unaudited condensed interim financial statements are consistent with those adopted in the most recent audited financial statements for the financial year ended 31 March 2019, except for the adoption of the following new MFRSs, amendments to MFRSs and Issues Committee ("IC") Interpretations which are effective for annual periods beginning on or after 1 January 2019:

- MFRS 16, Leases
- IC Interpretation 23, Uncertainty over Income Tax Treatments
- Amendments to MFRS 3, Business Combinations (Annual Improvements to MFRS Standards 2015-2017 Cycle)
- Amendments to MFRS 9, Prepayment Features with Negative Compensation
- Amendments to MFRS 11, Joint Arrangements (Annual Improvements to MFRS Standards 2015-2017 Cycle)
- Amendments to MFRS 112, *Income Taxes* (Annual Improvements to MFRS Standards 2015-2017 Cycle)
- Amendments to MFRS 119, Employee Benefits Plan Amendment, Curtailment or Settlement

(Company No. 926374-U) (Incorporated in Malaysia)

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 DECEMBER 2019

1. Basis of preparation (continued)

- Amendments to MFRS 123, Borrowing Costs (Annual Improvements to MFRS Standards 2015-2017 Cycle)
- Amendments to MFRS 128, Investment in Associates and Joint Ventures Long-term Interests in Associates and Joint Ventures

The initial application of the abovementioned accounting standards, amendments and interpretations do not have any material financial impact to the financial statements of the Bank, except for as disclosed below:

MFRS 16, Leases

MFRS 16 replaces the guidance in MFRS 117, Leases, IC Interpretation 4, Determining whether an Arrangement contains a Lease, IC Interpretation 115, Operating Leases - Incentives and IC Interpretation 127, Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

MFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset during the lease term and a lease liability representing its obligations to make lease payments. The right-of-use asset is depreciated in accordance with the principle in MFRS 116, *Property, Plant and Equipment* and the lease liability is accreted over time with interest expense recognised in the profit or loss. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard which continues to classify a lease as finance or operating lease.

The Bank applied MFRS 16 using the modified retrospective approach, where the cumulative transition effect of adoption, if any, is recognised in the opening of retained earnings as at 1 April 2019, with no restatement of comparative figures. On transition to MFRS 16, the Bank recognised lease liabilities amounting to RM10.4 million with a corresponding right-of-use assets amounting to RM10.4 million, whereby the difference between the lease liabilities and right-of-use assets is recognised in the retained earnings.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 DECEMBER 2019

11. Review of Performance

3rd quarter results ended 31 December 2019

For the third quarter ended 31 December 2019, the Bank registered profit before taxation of RM58.2 million, a decrease of 20.7% as compared to RM73.4 million recorded in the corresponding quarter last year. Profit after taxation decreased by 22.5% to RM46.1 million in the quarter under review as compared to RM59.5 million in the corresponding quarter in FY2018.

The decrease was mainly attributed to the increase in allowance for impairment on loans, advances and financing to RM6.8 million as compared to writeback of allowance of RM12.6 million in the corresponding quarter of FY2018.

Notwithstanding, the decrease in profit after taxation was partially offset by the increase in other operating income of 17.1% amounting to RM32.9 million as compared to RM28.1 million recorded in the corresponding quarter last year attributed mainly to the higher unrealised net gain on revaluation of derivatives. In addition, the net interest income recorded an increase amounting to RM67.1 million in the current quarter as compared to RM63.6 million in the corresponding quarter of FY2018.

Nine months financial results ended 31 December 2019

For the nine months financial period ended 31 December 2019, the Bank registered a profit before taxation of RM203.5 million, an increase of 9.5% as compared to RM185.9 million recorded in the corresponding period of FY2018. Consequentially, profit after taxation has improved by 10.7% to RM159.8 million as compared to RM144.3 million in the corresponding period last year. The improved performance was mainly attributed to the increase in other operating income of 42.1% to RM115.1 million as compared to RM81.0 million recorded in the corresponding period of FY2018 attributed largely to the higher unrealised net gain on revaluation of derivatives. In addition, the higher net interest income of RM197.3 million recorded in the nine months period of FY2019 as compared to RM184.8 million in the corresponding period of FY2018 had also contributed to the overall improved financial performance of the Bank.

Total assets registered a 13.5% increase amounting to RM22,056 million as at 31 December 2019 as compared to RM19,426 million as at the financial year ended 31 March 2019. This was mainly attributed to the net growth in loans, advances and financing of 6.9% to RM13,919 million, increase in cash and short-term funds of 16.4% to RM5,095 million and increase in deposits and placements with banks and other financial institutions of 84.4% to RM1,407 million as at 31 December 2019. In line with increase in total assets, total liabilities recorded an increase of 15.1% to RM18,813 million as compared to RM16,344 million as at 31 March 2019. This was largely contributed by the higher customer deposits of 21.7% to RM16,736 million as at 31 December 2019 as compared to RM13,753 million as at 31 March 2019.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 DECEMBER 2019

12. Current Year Prospects

The Malaysian economy recorded a moderated gross domestic product ("GDP") growth of 4.4% in the third quarter of 2019, bringing the overall performance of the first three quarters to 4.6%. Bank Negara Malaysia ("BNM") maintained its full year forecast for 2019 economic growth rate at between 4.3% to 4.8%. The pace of growth is expected to be sustained for the remainder of the year and going into 2020, the Government projected a growth of 4.8%. The optimistic outlook was underpinned by the continued expansion in domestic demand and key economic sectors such as a healthy labour market, low and stable inflation, well-diversified economy.

Private sector activities continued to be the primary driver of economic growth. Private consumption expanded consistent with strong employment rate and income growths although consumer sentiments moderate from its recent peak. In addition, growth was also supported by higher private investment indicative of both the Foreign Direct Investment ("FDI") and domestic direct investment in diverse sectors of the economy.

Despite the resilient economic performance, Malaysia remains subject to heightening uncertainties from external factors including rising protectionism, trade tensions in the major economies and geopolitical instability. These factors have exacerbated the financial and commodity price volatility on the back of high debt levels in the global market. Malaysia's diversified structure and inherent dynamism will help to weather the risks and vulnerabilities while preserving macroeconomic and financial stability.

The Bank remains cautiously optimistic and focus in doing business to achieve the targets for financial year ending 31 March 2020, despite the business challenges as stated above. The Bank has strategies in place to increase its presence with raised profiles and positions, to enhance processes with improved productivities and to build up portfolio with good profitability. The Bank is also confident that it will continue to be able to achieve its key financial targets similar to previous financial years.
