#### 12. Review of Performance

### 3rd quarter results ended 31 December 2020

For the third quarter ended 31 December 2020, the Bank recorded an operating profit of RM47.4 million, a decrease of 27.9% (Q3 FY2019: RM65.7 million). Due to the COVID-19 pandemic that resulted in the worsened market conditions, the Bank has taken a more prudent approach by providing higher allowances of impairment amounting to RM126.2 million (Q3 FY2019: RM7.5 million) despite no impaired loans were recorded to date. Consequentially, the Bank recorded a loss before taxation of RM78.7 million in the third quarter ended 31 December 2020, a decrease of RM136.9 million (Q3 FY2019: Profit before taxation of RM58.2 million). In the same financial quarter, the Bank recorded a loss after taxation of RM58.4 million, a decrease of RM104.5 million (Q3 FY2019: Profit after taxation of RM46.1 million) subsequent to the tax credit of RM20.4 million (Q3 FY2019: Tax expense of RM12.1 million) stemming from the higher allowances of impairment provided in the current quarter financial period.

### Nine months financial results ended 31 December 2020

For the nine months financial period ended 31 December 2020, the Bank recorded an operating profit of RM171.4 million, a decrease of 19.0% (9-months FY2019: RM211.5 million). As a result of the COVID-19 pandemic impact, the Bank has taken a more prudent approach by providing higher allowances of impairment amounting to RM197.7 million (9-months FY2019: RM8.0 million) despite no impaired loans were recorded to date. Consequentially, the Bank recorded a loss before taxation of RM26.3 million, a decrease of RM229.8 million (9-months FY2019: Profit before taxation of RM203.5 million). The Bank recorded a loss after taxation of RM18.2 million, a decrease of RM178.0 million (9-months FY2019: Profit after taxation of RM159.8 million) subsequent to the tax credit of RM8.1 million (9-months FY2019: Tax expense of RM43.7 million) stemming from the higher allowances of impairment provided in the current financial period.

Total assets recorded a decrease of 1.7% to RM21,442 million as at 31 December 2020 (31 March 2020: RM21,822 million). This was mainly attributed to the 6.2% decrease in loans, advances and financing amounting to RM14,369 million (31 March 2020: RM15,311 million) and the decrease in cash and short-term funds of 6.9% amounting to RM3,948 million (31 March 2020: RM4,239 million). The decrease was partially offset by the increase in deposits and placements with banks and other financial institutions of 76.9% amounting to RM1,538 million (31 March 2020: RM869.5 million).

The total liabilities recorded a decrease of 2.0% to RM18,188 million as at 31 December 2020 (31 March 2020: RM18,552 million). This was largely due to the lower deposits and placements of banks and other financial institutions of 64.0% amounting to RM818 million as at 31 December 2020 (31 March 2020: RM2,272 million). The decrease was partially offset by the increase in deposits from customers of 7.7% to RM16,630 million as at 31 December 2020 (31 March 2020: RM15,437 million).

Overall, the Bank remained well capitalised with Common Equity Tier 1 capital ratio and Total capital ratio of 21.8% and 23.0% respectively as at 31 December 2020 (31 March 2020: 21.2% and 22.4%).

# NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 DECEMBER 2020

#### 13. Current Year Prospects

The COVID-19 pandemic that crept into Malaysia at the start of the financial year 2020 had affected the Malaysian economy. The Government had introduced the Movement Control Order ("MCO") in Malaysia on 18 March 2020 following the increase in COVID-19 cases.

The reopening of the Malaysian economy from earlier COVID-19 containment measures and improving external demand conditions, the Malaysian economy recorded a smaller contraction Gross Domestic Product ("GDP") growth of 2.7% in the third quarter of calendar year 2020. The improvements in growth were seen across most economic sectors, particularly in the manufacturing sector, which turned positive on account of strong electrical and electronics (E&E) production activity. On the expenditure side, domestic demand contracted at a slower pace of 3.3% in the third quarter of calendar year 2020, driven by improvements in both consumption and investment activity. Net exports rebounded to record a positive growth of 21.9%, driven by a large improvement in exports vis-a-vis imports.

Year to date until 31 December 2020, Bank Negara Malaysia ("BNM") had cut the Overnight Policy Rate ("OPR") by a total of 125 basis points from 3.00% in January 2020 to 1.75% in July 2020. Thereafter, no change in OPR in the last quarter of calendar year 2020. BNM kept its full year 2020 GDP growth forecast to between -3.5% to -5.5%, albeit closer to the lower end of the range as this forecast range has already incorporated the assumption of resurgence in COVID-19 cases could affect the growth momentum in the final quarter of the year.

The Malaysian economy is expected to recover gradually in the final quarter of calendar year 2020 as the economy progressively re-opens and external demand improves, supported by the recovery in global growth and continued policies support which expected to register a positive recovery in 2021. BNM expected a rebound GDP growth range between 6.5% to 7.5% for 2021, underpinned by the improvements in external and a gradual normalisation in economic activities and labour market conditions. The projection is similar to the Malaysia Ministry of Finance's forecast and it is also in line with multilateral institutions such as the IMF and the World Bank.

The Bank will be supportive of customers in doing business during this challenging period. In line with the Government's call to sustain the economy, the Bank had put in place the loan repayment moratorium program that took effect from April to September 2020. However, the Bank was not affected as customers continued to repay their loans on scheduled. From October 2020, the Bank has also put in place the loan repayment assistance program to support customers in the event they have financial difficulties during the Covid-19 pandemic.

The Bank has taken the provisioning for potential loan loss and will continue to acknowledge the challenges ahead in achieving the targets for the financial year ending 31 March 2021. The Bank will remain with the strategies in place to increase its presence with raised profiles and positions, to enhance processes with improved productivities and to build up portfolio with good profitability. The Bank does not expect further large provisions in the remaining quarter of financial year ending 31 March 2021.
