NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 DECEMBER 2023

1. Basis of preparation

The unaudited condensed interim financial statements for the third quarter and financial period ended 31 December 2023 have been prepared in accordance with the requirements of Malaysian Financial Reporting Standard ("MFRS") 134, *Interim Financial Reporting* issued by the Malaysian Accounting Standards Board ("MASB").

The unaudited condensed interim financial statements have been prepared under the historical cost convention except for the following assets and liabilities which are stated at fair values: financial assets and liabilities at fair value through profit or loss ("FVTPL"), financial assets at fair value through other comprehensive income ("FVOCI") and derivative financial instruments.

The unaudited condensed interim financial statements should be read in conjunction with the audited annual financial statements of the Bank for the financial year ended 31 March 2023. The explanatory notes attached to the unaudited condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Bank since the financial year ended 31 March 2023.

The unaudited condensed interim financial statements incorporated those activities relating to the Islamic banking business which have been undertaken by the Bank. Islamic banking business refers generally to the acceptance of deposits and granting of financing under the principles of Shariah.

The significant accounting policies and methods of computation applied in the unaudited condensed interim financial statements are consistent with those adopted in the most recent audited financial statements for the financial year ended 31 March 2023, except for the adoption of the following new MFRSs, amendments to MFRSs and Issues Committee ("IC") Interpretations which are effective for annual periods beginning on or after 1 January 2023:

- MFRS 17, Insurance Contracts
- Amendments to MFRS 17, Insurance Contracts Initial application of MFRS 17 and MFRS 9 Comparative Information
- Amendments to MFRS 101, Presentation of Financial Statements Classification of Liabilities as Current or Non-current and Disclosures of Accounting Policies
- Amendments to MFRS 108, Accounting Policies, Changes in Accounting Estimates and Errors Definition of Accounting Estimates
- Amendments to MFRS 112, Income Taxes Deferred Tax related to Assets and Liabilities arising from a Single Transaction and International Tax Reform Pillar Two Model Rules

The initial application of the abovementioned accounting standards, amendments and interpretations do not have any material financial impact to the financial statements of the Bank.

11. Review of Performance

3rd quarter results ended 31 December 2023

For the third quarter ended 31 December 2023, the Bank registered a profit before taxation of RM79.3 million, an increase of 28.9% (Q3 Dec 2022: RM61.5 million). The improved performance was mainly attributed to the writeback of impairment on loans, advances and financing and other financial assets amounting to RM0.4 million (Q3 Dec 2022: allowance for impairment of RM15.1 million). Consequentially, the Bank recorded a profit after taxation of RM57.2 million, an increase of 43.4% in the third quarter ended 31 December 2023 (Q3 Dec 2022: RM39.9 million).

Nine months financial results ended 31 December 2023

For the nine months financial period ended 31 December 2023, the Bank registered a profit before taxation of RM293.1 million, an increase of 63.1% (9 months ended Dec 2022: RM179.7 million). The improved performance was mainly attributed to the writeback of impairment on loans, advances and financing and other financial assets amounting to RM45.3 million (9 months ended Dec 2022: allowance for impairment of RM25.5 million) largely due to the removal of Management Overlay arising from the COVID-19 affected sectors and Russia-Ukraine conflict potential affected sectors and replaced with the banks' identified vulnerable sectors during the period under review. Significant improvement in the Macro Economic Variables forecast data also contributed to the reversal amount. In addition, the other operating income has increased by 35.5% amounting to RM165.5 million (9 months ended Dec 2022: RM122.1 million) largely from the net gain in foreign exchange. Consequentially, the Bank recorded a profit after taxation of RM218.8 million, an increase of 63.3% (9 months ended Dec 2022: RM134.0 million).

Total assets recorded an increase of 11.3% to RM27,350 million as at 31 December 2023 (31 March 2023: RM24,578 million). This was mainly attributed to the 255.0% increase in debt instruments at fair value through other comprehensive income amounting to RM2,499 million (31 March 2023: RM704 million) and 81.5% increase in deposits and placements with banks and other financial institutions amounting to RM3,570 million (31 March 2023: RM1,967 million).

The total liabilities recorded an increase of 12.3% to RM23,246 million as at 31 December 2023 (31 March 2023: RM20,692 million). This was largely due to the higher deposits and placements of banks and other financial institutions of 40.8% amounting to RM4,505 million (31 March 2023: RM3,199 million) and higher deposits from customers of 5.6% amounting to RM17,670 million (31 March 2023: RM16,728 million).

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 31 DECEMBER 2023

12. Current Year Prospects

Malaysia's Gross Domestic Product ("GDP") in the third quarter of 2023 grew by 3.3 per cent (2Q 2023: 2.9 per cent). The growth was mainly driven by the improvement in domestic demand as economic activity, and further improvement in the labour market conditions. Inbound tourism activities continued to recover, lifting services exports and partially offsetting the slower goods export growth, in addition to continued policy support from the government. The moderate growth in third quarter of 2023 was partly driven by several temporary factors, including the decline in production in the manufacturing sector given the weakness in demand for electrical and electronic (E&E) products and lower production of refined petroleum products.

Domestic demand remained resilient underpinned by continued policy support such as capacity expansion, progress of multi-year projects and higher fixed asset spending by the government which provided additional lift to the economy and stronger private sector recovery supported by improving labour market conditions. Tourist arrivals are expected to continue rising, which would support tourism-related activities.

Nevertheless, the external demand challenges are emerging from global developments. These include faltering global growth, persistent elevated inflation, and the growth prospects of major economies, many of which are Malaysia's leading trading partners. The elevated inflation levels abroad prompting aggressive interest rate hikes in advanced economies which induced capital outflows and exchange rate depreciation. Taken together, these events have resulted in increased cost pressures for companies and households. The upside pressure on inflation continues to be contingent on domestic policy measures, development in the global commodity prices arising from geopolitical conflicts and strained supply chain. Despite the challenging global environment, the Malaysia's economy growth is projected to stay in the range of between 4.0 per cent to 4.5 per cent in 2024, anchored by the firm domestic demand and fiscal policy to be rolled out by the current government.

As the country's economy recovery continue to remain resilient amid the global conditions that are now compounded by regional and local factors, the Bank remains steadfast in building sustainable portfolio with inclusive growth. The Bank continues to maintain its business agenda with both Japanese and Non-Japanese clients while acknowledging the challenges ahead and shall continue to remain responsive to changing environment by adopting a prudent approach in managing costs.

12. Current Year Prospects (Continued)

Islamic Finance Outlook

The Islamic Banking industry in Malaysia continues to grow in the third quarter of Financial Year 2023, whereby in the month of September 2023, total Islamic Banking assets has grown to RM1,093.5 billion which was contributed mainly by stand-alone Islamic Banks recording a total assets of RM1,069.1 billion (97.8%), followed by Islamic Banking Window ("IBW") operations with a total assets of RM24.4 billion (2.2%). This is an increase of 2.9%% from fourth quarter of 2022's total assets of RM1,062.6 billion (stand-alone Islamic Banks' assets of RM1,038.0 billion and IBW assets of RM24.6 billion). Financing makes up the largest contribution at RM803.3 billion which is an increase of 4.8% from the fourth quarter of 2022 of RM766.8 billion.

The Bank's IBW has commenced in January 2023, complementing the already operating International Currency Business Unit ("ICBU") business. IBW is opened for clients seeking financing through Ringgit denominated products with 4 financing products and 2 ESG financing products.

Several factors will impact the continuing demand for ICBU and IBW respectively. These include the growth of the domestic and international economy, inflationary pressures, credit market conditions, strength of the Ringgit and advances in fintech and technology. Currently, the Bank is working on 2 IBW transactions, which are targetted to be disbursed by this Financial Year. At the same time under ICBU, the Bank has disbursed new facility under GBP financing in October 2023.

The Bank has also appointed a new Shariah Committee member to replace an out-going member, whom has served the maximum tenure allowed by the Shariah Governance Policy of BNM.
