# SUMITOMO MITSUI BANKING CORPORATION MALAYSIA BERHAD

[Company No. 201001042446 (926374-U)] (Incorporated in Malaysia)

FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED
31 MARCH 2023

# SUMITOMO MITSUI BANKING CORPORATION MALAYSIA BERHAD

(Incorporated in Malaysia)

# DIRECTORS' REPORT FOR THE FINANCIAL YEAR ENDED 31 MARCH 2023

The Directors have pleasure in submitting their report and the audited financial statements of Sumitomo Mitsui Banking Corporation Malaysia Berhad ("the Bank") for the financial year ended 31 March 2023.

# **Principal activities**

The Bank is principally engaged in the provision of banking and related financial services. There has been no significant change in the nature of these activities during the financial year.

# **Ultimate holding corporation**

The Directors regard Sumitomo Mitsui Banking Corporation and Sumitomo Mitsui Financial Group, Inc. as immediate and ultimate holding corporations respectively, during the financial year and until date of this report. Both companies are incorporated in Japan.

Results RM'000

Profit before taxation	272,597
Tax expense	(71,458)
Profit for the year	201,139

## **Dividends**

Since the end of the previous financial year, no dividend was paid and the Directors do not recommend any dividend to be paid for the financial year.

#### Reserves and provisions

There were no material transfers to or from reserves and provisions during the financial year under review except as disclosed in the financial statements.

# Bad and doubtful debts and financing

Before the financial statements of the Bank were made out, the Directors took reasonable steps to ascertain that all known bad debts have been written off and adequate provision made for impaired loans, advances and financing.

At the date of this report, the Directors are not aware of any circumstances, which would render the amount written off for bad debts or the amount of the provision for impaired loans, advances and financing in the Bank inadequate to any substantial extent.

#### **Current assets**

Before the financial statements of the Bank were made out, the Directors took reasonable steps to ascertain that the value of any current assets, other than debts and financing, which were unlikely to be realised in the ordinary course of business have been written down to an amount which they might be expected so to realise.

At the date of this report, the Directors are not aware of any circumstances, which would render the value attributed to the current assets in the financial statements of the Bank misleading.

#### Valuation methods

At the date of this report, the Directors are not aware of any circumstances, which have arisen that would render adherence to the existing method of valuation of assets or liabilities of the Bank's financial statements misleading or inappropriate.

# Contingent and other liabilities

At the date of this report, there does not exist:

- (i) any charge on the assets of the Bank which has arisen since the end of the financial year and which secures the liabilities of any other person, or
- (ii) any contingent liability in respect of the Bank that has arisen since the end of the financial year, other than those that may arise in the ordinary course of the banking business.

No contingent liability or other liability of the Bank has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Bank to meet its obligations as and when they fall due.

#### Change of circumstances

At the date of this report, the Directors are not aware of any circumstances, not otherwise dealt with in this report or the financial statements of the Bank, that would render any amount stated in the financial statements misleading.

#### Items of an unusual nature

In the opinion of the Directors, other than as disclosed in the financial statements, the financial performance of the Bank for the financial year ended 31 March 2023 has not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of that financial year and the date of this report.

DMINO

#### **Directors**

Directors who served during the financial year until the date of this report are as follows:

Dato' Wan Mohd Fadzmi Bin Che Wan Othman Fadzilah Tan Kim Seng Woo Chew Hong Hiroshi Nishimura (Appointed on 22 June 2022) Lim Tuang Ooi (Appointed on 1 February 2023) Kazuya Ikeda (Resigned on 1 May 2022)

#### **Directors' interests in shares**

None of the Directors holding office at the end of the financial year had any interest in the shares of the Bank and of its related corporations during the financial year.

#### **Directors' remuneration**

The Directors' remuneration paid to or receivable by the Directors of the Bank during the financial year are as follows:

	KW 000
Fees	615
Salaries and other remunerations	223
	838

#### **Directors' benefits**

Since the end of previous financial year, no Director of the Bank has received nor become entitled to receive any benefit (other than a benefit included in the aggregate amount of remuneration received or due and receivable by Directors as shown in the financial statements or the fixed salary of a full-time employee of the Bank) by reason of a contract made by the Bank or a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

Neither at the end of the financial year, nor at any time during the year, did there subsist any arrangements to which the Bank is a party whereby Directors might acquire benefits by means of the acquisition of shares in, or debenture of, the Bank or any other body corporate.

#### **Auditors' remuneration**

Total amount paid to or receivable by the Auditors as their remuneration for their services as auditors is as follows:

	RMT000
Statutory audit - current year	399
Non-audit services - current year	180
	579

# Compliance with Bank Negara Malaysia's expectations on financial reporting

In the preparation of the financial statements, the Directors have taken reasonable steps to ensure that Bank Negara Malaysia's expectations on financial reporting have been complied with including those as set out in the Guidelines on Financial Reporting.

# **Bank ratings**

On 29 December 2022, RAM Rating Services Berhad had reaffirmed the Bank's long and short-term financial institution ratings of AA1 Stable and P1 respectively.

#### Issue of shares and debentures

There were no changes in the issued and paid-up capital of the Bank during the financial year.

There were no debentures issued during the financial year.

#### Options granted over unissued shares

No options were granted to any person to take up unissued shares of the Bank during the financial year.

#### Indemnity and insurance costs

The Bank has put in place a Directors and Officers Insurance scheme with a maximum sum insured amount and premium paid of RM4.46 million and RM42,489 respectively effective for the financial year.

During the financial year, there were no indemnity given or insurance effected for auditors of the Bank.

#### Business results for the financial year ended 31 March 2023

For the financial year ended 31 March 2023, the Bank recorded profit before taxation of RM272.6 million, an increase of RM28.6 million (31 March 2022: RM244.0 million). The improved performance was mainly attributed to the increase in net interest income of RM57.6 million to RM260.5 million (31 March 2022: RM202.9 million) mainly from the loans, advances and financing portfolio. The increase was slightly offset by the higher allowance for impairment on loans, advances and financing and other financial assets of RM23.4 million to RM24.9 million. Consequently, the Bank recorded profit after taxation of RM201.1 million, an increase of RM23.7 million (31 March 2022: RM177.4 million).

Total assets increased 17.9% to RM24,578.4 million as at 31 March 2023 (31 March 2022: RM20,845.1 million). This was mainly attributed to the 5.1% increase in loans, advances and financing amounting to RM15,169.5 million (31 March 2022: RM14,436.9 million), increase in cash and short-term funds of 25.2% amounting to RM5,909.2 million (31 March 2022: RM4,720.1 million) and increase in deposits and placements with banks and other financial institutions of 260.2% amounting to RM1,967.4 million (31 March 2022: RM546.2 million).

The total liabilities recorded an increase of 20.6% to RM20,691.7 million as at 31 March 2023 (31 March 2022: RM17,159.8 million). This was largely due to the higher deposits from customers of 6.3% amounting to RM16,727.8 million as at 31 March 2023 (31 March 2022: RM15,729.1 million) and deposits and placements of banks and other financial institutions of 239.0% amounting to RM3,199.1 million as at 31 March 2023 (31 March 2022: RM943.6 million).

#### Outlook for the financial year ending 31 March 2024

Malaysia's Gross Domestic Product ("GDP") in the fourth quarter of 2022 grew by 7.0 per cent (3Q 2022: 14.2 per cent), bringing the full year 2022 GDP growth 8.7 per cent (2021: 3.1%). The growth was supported mainly by an improvement in domestic demand as economic activity, improving labour market conditions and revival in tourism activities coupled with continued policy support from the government.

The Malaysian economy is expected to expand at a more moderate pace between 4.0 per cent to 5.0 per cent in 2023. The momentum in economic recovery was affected by the continued expansion in external demand, full upliftment of containment measures, reopening of international borders, and a stronger private sector recovery which supported by improvement in labour market conditions. The implementation of investment projects, targeted policy measure and expansion in the services and manufacturing sectors will provide further support to the domestic economy and aggregate demand.

The risks to Malaysia's growth trajectory are relatively balanced. Downside risks emanate from external factors due to weaker-than-expected global growth due to tightening in the global financial markets (tighter monetary policy), geopolitical tensions that could dampen Malaysia's trade performance. On the domestic economy, persistent inflation would erode household purchasing power, increase in input costs that reduces firm's profits. In this regard, better-than-expected labour market condition, stronger pick-up in tourism activity and fiscal measures from the recently re-tabled Budget 2023 help cushion the adverse impact of the downside risks on the domestic growth outlook.

The Bank remains steadfast in building sustainable portfolio with inclusive growth and focus on strengthening its business resilience, and maintain its business agenda with both Japanese and Non-Japanese clients while acknowledging the challenges ahead and continue to remain responsive to changing environment by adopting prudent approach in managing cost.

#### Islamic Finance Outlook for the financial year ending 31 March 2024

During last financial year, despite higher financing rate following the adjustment of Overnight Policy Rate (OPR) by Bank Negara Malaysia (BNM), Islamic Financing growth in Malaysia continue to outperform Conventional Banks. This mainly derived from Consumer and Sukuk market. Islamic Financing's market share stood at 45% in 2022 compared to 35% in 2017. BNM forecasted Islamic Financing's market share to grow to 50% by 2027.

For this financial year, OPR is expected to see another hike in second-half of the year, after the last hike on 3rd May 2023 by 25 basis point, resting it at 3.0%. The expected neutral value for OPR in Malaysia is around 3.0% to 3.25%.

As for the Bank, we have successfully launched Islamic Banking Window (IBW) on 10th January 2023, which has allowed us to offer Malaysia Ringgit (MYR) base Islamic Financing products, in addition to the existing Foreign Currency (FCY) Products under International Currency Business Unit (ICBU) to our clients.

With the wider ability to offer Islamic Finance, we expect our Islamic Finance business would be able to further contribute to the Bank asset growth and profitability in the coming financial year.

#### **Corporate Governance Disclosures**

#### **Board of Directors**

The members of the Board bring to the Bank a wealth of knowledge, experience and skills in a wide range of areas, inter alia, business strategy, finance, risk management and technology, which are key for the delivery of the necessary corporate governance oversight required by Bank Negara Malaysia ("BNM"). In addition, the composition by the members of the Board is designed to uphold the highest standards of independence and compliance to corporate governance and by setting in place, the strategy and direction of the Bank through the formulation of policies and establishment of the respective Board Committees. These policies will be subjected to regular reviews and enhancements as and when the need arises. All policies are formulated to take into consideration the principles and standards as set by BNM in its Guidelines on Corporate Governance (BNM/RH/PD 029-9) and the Shariah Governance Policy Document.

#### **Board composition**

The Board currently has five (5) members, comprising one (1) Independent Non-Executive Chairman, three (3) Independent Non-Executive Directors and one (1) Executive Director. The Board has a majority of Independent Directors which complies with the BNM's Policy Document on Corporate Governance. A brief profile of each member of the Board is presented on pages 8 to 12 of the financial statements.

As stipulated in the Board Charter of the Bank, the tenure of Independent Non-Executive Directors of the Bank shall not exceed an aggregate of six (6) years, save and except for exceptional circumstances that the tenure could be further extended up to a maximum term of nine (9) years.

# **Board composition (continued)**

Profile of each Director is as follows:

# 1. Dato' Wan Mohd Fadzmi Bin Che Wan Othman Fadzilah ("Dato' Wan Fadzmi") (Age 57, Malaysian)

(Independent Non-Executive Chairman)

Dato' Wan Fadzmi was appointed as an Independent Non-Executive Director on 1 April 2018 and subsequently redesignated as Chairman on 15 May 2021. He is a member of Board Risk Management Committee, Board Audit Committee and Board Nominations and Remuneration Committee.

He has extensive experience in domestic and international banking. During his 22 years career in Malayan Banking Berhad, Dato' Wan Fadzmi held various senior management positions including chief executive and country heads for the bank's operations in London, New York and Hong Kong. In addition, he was director of Global Financial Banking Strategic Business Group at RHB Bank Berhad from July 2010 to June 2011 before assuming the position as the president/chief executive officer at Bank Pertanian Malaysia Berhad ("Agrobank") from July 2011 until August 2017.

- Integrated Reporting as part of Sustainability Reporting Requirement

Mr. Lim does not have any shareholding in the Bank.

#### **Board composition (continued)**

# 5. Hiroshi Nishimura (Age 50, Japanese)

(Executive Director)

Mr. Hiroshi Nishimura was appointed as an Executive Director of the Bank on 22 June 2022.

He is Executive Officer and General Manager, Strategic Planning Department and Governance Planning Department of Asia Pacific Division, SMBC Singapore Branch, heading Planning, Finance, Human Resource and Information Technology functions of Asia Pacific Division. He has over 28 years of experience in the banking industry focusing mainly on the planning and corporate banking.

Before the current role, he was Joint General Manager of Planning Department, Global Banking Unit, SMBC Tokyo and was responsible for oversight of strategy and finance of the bank's overseas operations. He also experienced in various positions in the bank's foreign branches and subsidiaries in Hong Kong, London and Shanghai.

He holds a Master of International Business from Agoyama Gakuin University, Japan and Bachelor of Law (L.L.B.) from Kyoto University, Japan. He is a Member of Institute of Corporate Directors Malaysia (ICDM).

Mr. Nishimura has attended the following trainings held during the year:-

- PIDM-FIDE FORUM: Recovery and Resolution Planning Sharing Session
- Islamic Finance for Board of Directors (IF4BOD) Training Programme

Mr. Nishimura does not have any shareholding in the Bank.

# **Board composition (continued)**

Members of the Board are professionals in their own rights and they possess the pre-requisite skills, knowledge, experiences and expertise from the private sector and the banking industry. They contribute immensely by adding value to the strategy and direction of the Bank. They are persons of high calibre and integrity and they duly fulfilled the "Fit and Proper" standards for appointment of Directors as established by the Board in accordance with the Financial Services Act 2013, the Guidelines on Corporate Governance and Fit and Proper Standards, other relevant regulations and industry best-practices.

#### **Board roles and responsibilities**

The Board shall review and approve strategies, business plans and significant policies and monitors the Management's implementation of the approved strategies, plans and policies. The Board ensures that there are adequate controls and systems in place to facilitate the implementation of the Bank's policies. Consequentially, the Bank establishes comprehensive risk management policies, processes and infrastructure, to manage the various types of risks. The Board accordingly monitors and assesses current developments in the country and globally which may affect the Bank's existing strategic plans.

The Board regularly reviews the adequacy and the integrity of the Bank's internal control systems and management information systems, including systems for compliance with applicable laws, regulations, rules, directives and guidelines.

The respective roles of the Chairman and President / CEO are clearly separated from each other with clearly defined responsibilities, authority and accountability. This distinction allows an appropriate balance of roles between the Board and Management. The Independent Directors are independent of management and are free from any business or other relationships that may interfere with the exercise of their independent judgement. A Director who has any interest, either directly or indirectly in any material transactions or arrangements shall at all times declare his / her interest and shall abstain from deliberation and voting when such matters are being tabled to the Board for deliberation and decision.

# Performance criteria used to assess the Board as a whole

The effectiveness of the Board is measured against the Bank's performance in terms of profitability, internal controls, risk management and cost effectiveness.

#### Frequency and conduct of Board meetings

Regular meetings are scheduled to discuss key issues of the Bank including review of the governance and compliance, financial performance, operations and risk management and to deliberate on matters which require the Board's decision and approval. In addition to scheduled Board and Board Committees' meetings, ad-hoc or special Board and Board Committee meetings may be convened from time to time when required.

# **Board meetings**

A total of 12 Board meetings were held during the financial year in review. All Directors have complied with BNM requirements that Directors must attend at least 75% of Board meetings held in the financial year. The details of the meeting attendance are as follows:

Name of Directors	Attendance	%
Dato' Wan Fadzmi - Chairman	12/12	100
Tan Kim Seng	12/12	100
Woo Chew Hong	12/12	100
Hiroshi Nishimura (Appointed on 22 June 2022)	9/9	100
Lim Tuang Ooi (Appointed on 1 February 2023)	3/3	100
Kazuya Ikeda (Resigned on 1 May 2022)	2/2	100

# **Board Committees**

The Board is supported by specific Board Committees to oversee critical and major functional areas of the Bank.

The functions and terms of reference of each Board Committee have been approved by the Board and are revised from time to time to ensure that they are relevant, effective and up-to-date.

The Board Committees established are as follows:

- 1. Board Nominations and Remuneration Committee;
- 2. Board Audit Committee; and
- 3. Board Risk Management Committee.

# **Board Committees (continued)**

# **Board Nominations and Remuneration Committee ("BNRC")**

The BNRC consists of four (4) Independent Non-Executive Directors.

The details of attendance of each member at BNRC meetings held during the financial year in review are as follows:

Name of Directors	Attendance	%
Woo Chew Hong - Chairman	9/9	100
Tan Kim Seng	9/9	100
Dato' Wan Fadzmi	9/9	100
Lim Tuang Ooi (Appointed on 1 February 2023)	1/1	100

The objective of the BNRC includes:

- 1. To provide formal and transparent procedures for the appointment of Directors, members of the Shariah Committee ("ShC"), President/CEO, key senior management officers, senior officers and the Company Secretary;
- 2. Assessment of effectiveness of individual Directors, the Board as a whole and members of the ShC:
- 3. To support the Board in carrying out the performance evaluation of President/CEO, key senior management officers, senior officers and Company Secretary; and
- 4. Recommending remuneration for Directors, members of the ShC, President/CEO, key senior management officers, senior officers and other material risk takers in ensuring that compensation is competitive and consistent with the Bank's culture, objectives and strategy.

The BNRC with regard to its nomination roles is responsible for amongst others:

- 1. Establishing minimum requirements for the Board, i.e. required mix of skills, experience, qualification and other core competencies required of a Director. The Committee is also responsible for establishing minimum requirements for the members of the ShC and President/CEO:
- 2. Recommending to the Board the approval, the appointment and removal of directors, members of the ShC, President/CEO, key senior management officers, senior officers and Company Secretary;
- 3. Reviewing the overall composition of the Board, in terms of the appropriate size and skills, and the balance between Executive Directors, Non-Executive Directors and Independent Directors through annual review;
- Supporting the Board in conducting the performance evaluation and development of the Board members, Committee members, Shariah Committee members, President/CEO, key senior management officers, senior officers and Company Secretary for competency assessment purposes;
- 5. Assessing the independence of Independent Directors annually and that the Independent Directors meet the identified independence criteria and are not disqualified under relevant qualification;

# **Board Committees (continued)**

#### **BNRC** (continued)

The BNRC with regard to its nomination roles is responsible for amongst others (continued):

- 6. Supporting the Board in carrying out assessment on an annual basis, to ensure that the Directors, members of the ShC, key responsible persons and Company Secretary are not disqualified under Financial Services Act 2013 and Companies Act 2016 and they must have been assessed to have complied with the fit and proper requirements; and
- 7. Supporting the Board in carrying out the review of the Board succession plan, ShC succession plan and succession plan for President/CEO, key senior management officers, senior officers and Heads of Department.

The BNRC with regard to its remuneration roles is responsible for:

- 1. Recommending to the Board the remuneration framework for Directors, members of the ShC, President/CEO, key senior management officers and senior officers;
- 2. Reviewing and recommending to the Board the remuneration for each Director, members of the ShC, President/CEO, key senior management officers, senior officers and other material risk takers:
- 3. Supporting the Board in actively overseeing the design and operation of the Bank's remuneration system; and
- 4. Reviewing the annual variable bonus pool proposals for the Bank, ensuring that they are appropriately performance and risks adjusted.

#### **Board Audit Committee ("BAC")**

The BAC consists of four (4) Independent Non-Executive Directors.

The details of attendance of each member at BAC meetings held during the financial year in review are as follows:

Name of Directors	Attendance	%
Tan Kim Seng - Chairman	6/6	100
Woo Chew Hong	6/6	100
Dato' Wan Fadzmi	6/6	100
Lim Tuang Ooi (Appointed on 1 February 2023)	1/1	100

The objective of the BAC is to support the Board in ensuring that there is a reliable and transparent financial reporting process within the Bank and to review the effectiveness of the internal control functions therein.

# **Board Committees (continued)**

# **BAC (continued)**

The key responsibilities of the BAC are:

# 1. Fair and transparent financial reporting

i. Support the Board in ensuring a reliable and transparent financial reporting process within the Bank.

#### 2. Internal Audit

- Oversee the functions of the Internal Audit Department ("IAD") and ensuring compliance with BNM Guidelines on internal audit functions of licensed institutions and head office policy and procedure;
- ii. Review and approve the audit plan, procedures and frequency;
- iii. Review audit reports and ensuring that senior management is taking necessary corrective actions in a timely manner;
- iv. Noting significant disagreements between the Head of IAD / Chief Internal Auditor ("CIA") and the rest of the senior management team, irrespective of whether these have been resolved, in order to identify any impact the disagreements may have on the audit process or findings;
- v. Establish a mechanism to assess the performance and effectiveness of the internal audit function; and
- vi. Appoint, set compensation, evaluate performance, decide on the transfer and dismissal and also review the reasons and circumstances leading to the resignation of the Head of IAD / CIA.

#### 3. Internal controls

i. Review the appropriateness and effectiveness of internal controls and risk management processes.

#### 4. External auditors

- i. Make recommendations to the Board on the appointment, removal and remuneration of the external auditor:
- ii. Monitor and assess the independence of the external auditor, including approval of the provision of non-audit services by the external auditor;
- iii. Monitor and assess the effectiveness of the external audit and meeting with the external auditor without the presence of senior management at least annually;
- iv. Maintain regular, timely, open and honest communication with the external auditor and requiring the external auditor to report to the BAC on significant matters; and
- v. Ensure that senior management is taking necessary corrective actions in a timely and effective manner to address external audit findings and recommendations.

#### 5. Related party transactions

i. Review all related party transactions and keep the Board informed of such transactions.

#### 6. External experts

- i. Engage external experts in circumstances where the internal audit function lacks the expertise needed to perform the audit of specialised areas; and
- ii. To ensure that the independence of the external auditor in its role as statutory auditor of the Bank is not compromised if the external auditor is engaged as external experts.

# **Board Committees (continued)**

#### **BAC** (continued)

# Internal audit and control activities

Internal audit is independent and staffed with qualified internal audit personnel to perform the internal audit functions, covering the financial, operations and management audit. The BAC oversees the functions of the IAD and ensures compliance with BNM Guidelines on internal audit functions of licensed institutions (BNM/RH/GL 013-4).

The responsibilities of the Head of IAD / CIA and audit personnel are:

- 1. Develop a flexible annual audit plan using appropriate risk-based methodology, including any risks or control concerns identified by Management and submit that plan to the BAC for review and approval;
- 2. Implement the approved annual audit plan, including any special appropriate tasks or projects requested by BNM, the Management and directed by the BAC;
- 3. Maintain clearly documented audit programs to provide guidance to auditors in gathering information, documenting procedures performed and making assessment;
- 4. Maintain a team of professional audit staff with sufficient knowledge, skills and experience to fulfil the responsibilities;
- 5. Checking and testing the compliance with, and effectiveness of policies, procedures and controls and assessing whether current measures are in line with the latest developments and changes to the relevant BNM requirements;
- 6. Issue written audit reports to the BAC and Management, detailing the audit findings and recommendations as well as the client's responses and action plans in a timely manner after the completion of the audit;
- 7. Monitor progress of rectification actions on findings raised, taking into consideration the timeline committed by Management. This includes rectification actions taken in regard to findings raised by regulatory authorities or external auditors; and
- 8. Conduct investigation on suspected fraudulent activities when required and notify Management and the BAC of the results.

# **Board Committees (continued)**

#### **Board Risk Management Committee ("BRMC")**

The BRMC consists of four (4) Independent Non-Executive Directors.

The details of attendance of each member at BRMC meetings held during the financial year in review are as follows:

Name of Directors	Attendance	%
Lim Tuang Ooi - Chairman (Appointed on 1 February 2023)	2/2	100
Tan Kim Seng	8/8	100
Dato' Wan Fadzmi	8/8	100
Woo Chew Hong	8/8	100

The objective of the BRMC is to oversee the Bank's activities in managing credit, market, operational, liquidity, legal, compliance, information technology, outsourcing, products and other risks in supporting the Board in meeting the expectations on the risk management as set out in BNM Policy Documents on Risk Governance, Compliance, Risk Management in Technology, Outsourcing, Introduction of New Products and other BNM Policy Documents (where other risk matters related are applicable) while ensuring proper risk management process is properly in place and functioning well.

The BRMC is responsible for amongst others:

- 1. Reviewing and recommending to the Board on the Bank's risk management strategies, policies and risks tolerance;
- 2. Reviewing and assessing the adequacy of risk management policies and framework in identifying, measuring, monitoring and controlling risks and the extent to which these are operating effectively;
- 3. Ensuring adequate infrastructure, resources and systems are in place to support effective risk management and to ensure that the staff responsible for implementing these risk management systems perform those duties independently of the Bank's risk taking activities;
- 4. Reviewing management's periodic reports on risk exposure, risk portfolio composition and risk management activities; and
- Appoint, set remuneration, evaluate performance and decide on the dismissal of the Head of Risk Management / Chief Risk Officer ("CRO"), Head of Compliance Department / Chief Compliance Officer ("CCO") and Head of Credit Review Department ("HCRVD"). The CRO, CCO and HCRVD report directly to the BRMC.

# **Shariah Committee ("ShC")**

The ShC consists of 3-members and headed by a designated Chairman, consistent with the requirements under BNM's Shariah Governance Policy Document. Each of these members met the requirement of BNM and has the knowledge, expertise and experience in Islamic banking. The appointments of each ShC members were based on rigorous selections process, and have been duly endorsed by Board of Directors of SMBCMY and approved by BNM.

Currently, the ShC is chaired by Assoc. Prof. Dr. Mushaddad bin Hasbullah.

During Financial Year 2023, SMBCMY has appointed 2 new ShC members who are Assoc. Prof. Dr. Abdul Manan bin Ismail and Dr. Mohamad Rizal bin Mohamed Nor on 9 November 2022. These new appointments were to replace Dr. Muhammad Pisol bin Mohd @ Mat Isa and Mr. Mohamed Khairul Anuar bin Mohd Basri who have retired on 1 December 2022 after 8-years of services as ShC members, in line with the Bank's Shariah Committee Succession Plan.

Assoc. Prof. Dr. Mushaddad bin Hasbullah, Dr. Muhammad Pisol bin Mohd @ Mat Isa and Mr. Mohamed Khairul bin Mohd Basri have completed their certification course on Certified Shariah Advisor ("CSA") conducted by Association of Shariah Advisors in Islamic Finance ("ASAS") and have successfully graduated on 28 May 2022.

For financial year ended 31 March 2023, the ShC held 10 meetings.

The details of attendance of each member at the ShC meetings held during the financial year ended 31 March 2023 are as follows:

Name of ShC members	Attendance	%
Assoc. Prof. Dr. Mushaddad bin Hasbullah - Chairman	10 / 10	100
Dr. Muhammad Pisol bin Mohd @ Mat Isa		
(Retired on 1 December 2022)	5/5	100
Mr. Mohamed Khairul Anuar bin Mohd Basri		
(Retired on 1 December 2022)	5/5	100
Assoc. Prof. Dr. Abdul Manan bin Ismail		
(Appointed on 9 November 2022)	6/6	100
Dr. Mohamad Rizal bin Mohamed Nor		
(Appointed on 9 November 2022)	6/6	100

# **Shariah Committee ("ShC") (continued)**

During the financial year, the Bank has conducted the following trainings and knowledge-sharing sessions for ShC members:

No	Program	Date
1	Knowledge Sharing Session with Compliance Department	21 July 2022
2	Knowledge Sharing Session with Strategic Credit Management Department	11 August 2022
3	Knowledge Sharing Session with Market Risk Management Department	25 August 2022
4	New ShC members Onboarding Session	8 December 2022
5	Knowledge Sharing Session with Operational Risk Management	13 February 2023

In addition, ShC members have also attended the following external events:

No	Program	Date
1	Muzakarah Ahli Majlis Penasihat Syariah (MPS) Institusi Kewangan di Malaysia	23 June 2022
2	Kuala Lumpur Islamic Finance Forum's Muzakarah Penasihat Syariah Kewangan	18 August
	Islam Kali Ke-15	2022
3	Global Islamic Finance Forum 2022	5 & 6 October
		2022

As stated in Shariah Committee Charter, ShC is responsible for:

- 1. Advising the Board and providing objective and sound input to the Bank on Shariah matters in order for the Bank to comply with Shariah principles at all times;
- 2. Endorsing Shariah policies and procedures prepared by the Bank and to ensure that the contents do not contain any elements which are not in line with Shariah;
- 3. Ensuring that the products of the Bank comply with Shariah principles, the ShC must approve:
  - i. The terms and conditions contained in the forms, contracts, agreements or other legal documentations used in executing the transactions; and
  - ii. The product manual, marketing advertisements, sales illustrations and brochures used to describe the product;
- 4. Assessing the work carried out by Shariah review and Shariah audit in order to ensure compliance with Shariah matters;
- 5. Advising the Bank to consult BNM's Shariah Advisory Council ("SAC") on Shariah matters that could not be resolved; and
- Providing written Shariah opinions, decision or advice in circumstances where the Bank makes reference to the BNM's SAC for further deliberation, or where the Bank submits applications to the BNM for new products.

#### **Internal Control Framework**

#### **Board Responsibility**

The Board is responsible for and has oversight of the Bank's system of internal control and risk management, which includes the design, establishment and implementation of an appropriate risk management framework and internal control system with mechanisms to facilitate periodic reviews on the adequacy and effectiveness of the internal control framework taking into consideration material changes to the size, nature and complexity of the Bank's operations.

To achieve the aforesaid objectives, the Board is assisted by Board Committees (namely the BAC, BRMC and BNRC) and Shariah Committee ("ShC"). Notwithstanding the delegation of authority to the Board Committees and ShC, the Board remains responsible for the governance of risk and internal control, and the actions of the Board Committees and ShC.

In discharging its responsibilities, the Board is continuously involved in approving risk appetites, business plans and any other initiatives that may have a material impact on the risk profile of the Bank, whilst at all times keeping close scrutiny on both the current and emerging risks posed to the Bank from both external or internal factors.

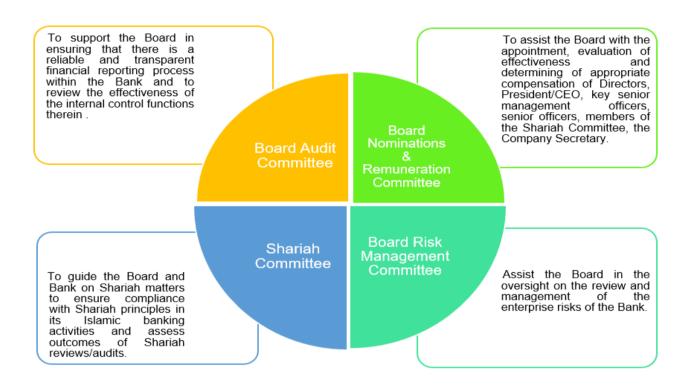

An effective and robust internal control eco-system, namely through the implementation of the Three Lines of Defence, which is supported by various embedded internal control framework, such as the Business Control Officer ("BCO") structure, Conduct Risk and Consequences Management Framework, the Operational Risk Management Framework, Compliance Risk Assessment and Review Framework and Internal Audit Risk Assessment and Audit Plan, that provide assurance, early detection, robust mitigation and prompt escalation of critical issues to the Board thus enabling the Board to maintain line of sight on the state of affairs in the Bank and to take such necessary steps deemed appropriate to manage risk exposure within the approved risk appetities.

The Board has also set the "tone from the top", together with the Management, to promote a sound corporate culture within the Bank which reinforces legal and regulatory compliancy, ethical, prudent and professional behaviour. The Board continues to place much emphasise in maintaining zero tolerance towards bribery and corruption.

The Board is committed to maintaining a robust risk management and internal control framework to safeguard, not only its reputation, assets and stakeholders' interests, but also the interests of the Bank's customers and the public in general.

#### **Internal Control Framework (continued)**

#### **Board Responsibility (continued)**

#### **Management Responsibility**

The Management is responsible for the day-to-day operations of the Bank and accountable to the Board and for the implementation of all policies approved by the Board. In the context of risk management and internal control measures, to facilitate the establishment of a robust and effective risk management and internal control system.

The role of the Management in maintaing a robust and efficient risk management and internal control system encompases the following stages:

- Identifying and evaluating both the current and emerging risk faced by the Bank in achieving its business strategies and objectives;
- ii. Establishing relevant policies, procedures and processes, with the appropriate internal control measurements embedded therein, to manage and mitigate the identified risk;
- iii. Designing, implementing and monitoring the robustness and effectiveness of the risk management framework and internal control system;

# **Internal Control Framework (continued)**

#### **Management Responsibility (continued)**

- iv. Reporting in a timely manner to the Board any change in the prevailing legal and regulatory framework affecting the Bank and/or any gaps and lapses identified within the risk management framework and internal control system, resulting in the need to reassess the adequacy of the Bank's current risk management framework and internal control systems; and
- v. Designing and implementing the remedial actions required to adhere to the new legal and regulatory requirements and/or to address the identified gaps and lapses, with continual obligation to monitor and report to the Board accordingly on the adequacy and effectiveness of the implemented remedial actions.

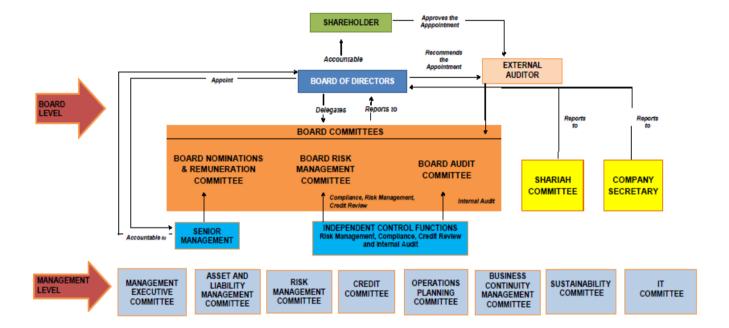

The Management is also assisted by various Management Committees to carry out their duties in fulfilment of the requirements stated above, namely the Management Executive Committee ("MEC"), Risk Management Committee ("RMC"), Credit Committee ("CC"), Asset and Liability Management Committee ("ALCO"), Business Continuity Management Committee ("BCMC"), Operations Planning Committee ("OPC"), Sustainability Committee ("SC") and Information Technology Committee ("ITC").

# **Internal Control Framework (continued)**

#### **Risk Governance Structure**

Premised on the roles and responsibilities of the Board and Management, and the various committees that have been established to support them in discharging the roles, an overview of the risk governance structure of the Bank is illustrated below.

#### Three Lines of Defence

The internal control framework lies in the foundation of the Bank's three lines of defence and in its key internal control processes.

# I. First Line of Defence

The first line of defence refers to the line departments which are responsible for identifying, assessing, mitigating and reporting risks within their own areas of business. This essentially means the line departments need to have the strategic understanding and are fully conversant with the risks undertaken and are accountable for ensuring that the appropriate mitigating controls are in place.

Within the Bank, the business operations and their support functions, which perform the day-today activities in realising business strategies and also undertaking the risk and control management activities are associated to be the first line of defence.

The staff of the business and support functions must understand their roles and responsibilities with regard to processing transactions and who must follow systematic procedures and processes to ensure the established internal controls are complied with.

# **Internal Control Framework (continued)**

#### **Three Lines of Defence (continued)**

# I. First Line of Defence (continued)

The Heads of Department are responsible to identify and assess risks and to ensure that the control activities and other responses that address the risks are monitored and enforced. The Heads of Department are assisted by their respective BCO.

The embedded BCO at each department within the Bank has key roles to support, detect, deter, mitigate and escalate potential and identified risk and compliance related matters to their respective Heads of Departments for further reporting to the Management. This is achieved by the involvement of the BCO in key control activities, such as gap analysis on new or revised regulations issued by BNM, annual Risk and Control Self Assessment, annual Business Impact Assessment, preparation and submission of incidence report arising from identified operational lapses, Compliance reviews and Internal Control Audits, and the relevant remedial or enhancement actions impacting their respective departments.

#### II. Second Line of Defence

The second line of defence is the risk management related functions which have both the advisory and monitoring roles to the first line departments. This second line actively challenges the assessments and initiatives done by the first line departments by engaging with risk owners and consolidating Bank-wide risks into various risk types.

The risk management related functions also includes "Risk Policy Owners", who manage specific transversal risks shared across the Bank, for example credit, market and operational risks, compliance risk, people risk and legal risk.

#### i. Risk management functions

These functions, comprising the managements of credit risk, market risk, enterprise risk and operational risk, are headed by the Chief Risk Officer ("CRO"), who reports directly to the BRMC. These functions provide independent assessment / challenge to the business and support functions and ensure that Management and BRMC are duly informed of any lapses or breaches of risks related.

The major responsibilities of these functions, among others, are participating in the RMC,OPC, BCMC, SC, ALCO and CC reviewing risk reports and validating compliance to the risk management framework requirements, with the objective of ensuring that credit, market and operational risks are actively and appropriately managed. The risk management functions shall be guided by the risk management process.

#### ii. Shariah risk function

The shariah risk function comes under the purview of Operational Risk Management Department ("ORM"). Shariah non-compliance risk exposures in the business operations and activities identified during the implementation of ORM tools are being reported to Senior Management, Shariah Committee and BRMC.

# **Internal Control Framework (continued)**

#### Three Lines of Defence (continued)

#### II. Second Line of Defence (continued)

#### iii. Compliance risk function

The compliance culture of the Bank is driven with a strong tone from the top to ingrain the expected values and principles of conduct that shape the behaviour and attitude of employees at all level of business and activities across the Bank.

The Bank takes a firm stand in advocating a compliance culture as compliance is the responsibility of all employees. All business lines and functions within the Bank are to carry out their responsibilities to ensure effective management of compliance risk.

The compliance risk function is responsible for assisting Senior Management and Board with the management of compliance and regulatory risk via the following:

- a. Identification, assessment and monitoring of compliance risks;
- b. Reporting of compliance risk; and
- c. Providing advisory, guidance and training with regards to compliance with rules and regulations.

In order to discharge the aforesaid responsibilities, the Compliance Department engages in the following activities:

- a. To promote the culture of compliance with legal and regulatory requirements, compliance related policies and procedures and ethical standards in the conduct of business.
- b. The Compliance Department of the Bank is responsible for ensuring that controls to manage compliance risk are adequate and operating as intended. Upon issuance of new regulatory guidelines, the Compliance Department will facilitate gap analysis and the establishment of relevant control processes with the relevant stakeholders.
- c. Compliance Risk Assessment (CRA) is undertaken by the department to assess the areas of higher compliance risk/weaker controls on annual basis and an action plan is then prepared to outline control activities on identified areas of risk/weaknesses.
- d. The Compliance Department performs Compliance self-reviews to ensure that the regulatory requirements and policies of the Bank are complied with. The department also conducts appropriate validation to test and evaluate the adequacy of internal controls put in place to manage compliance risks and promptly follow-up on any identified deficiencies and plans to address such deficiencies. Compliance risks findings and recommendations are reported to the Board/BRMC, RMC and the Regional In-Office Compliance Committee on a regular basis.
- e. The department carries out compliance awareness and training via face-to-face training and e-learning on a continuous basis.
- f. The reporting of compliance risk status of the Bank and the regulatory developments via the issuance of policy documents, directives and exposure drafts by BNM.

# **Internal Control Framework (continued)**

Three Lines of Defence (continued)

#### II. Second Line of Defence (continued)

#### iii. Compliance risk function (continued)

The Bank has in place a Compliance Manual which serves as a reference to all employees of the legal and regulatory requirements of which the Bank has to comply when conducting business, and the internal rules and procedures for conduct of its employees. The Compliance Manual is subjected to annual review. Further, the Compliance Department has also developed specific policies to manage specific areas of regulatory risk, such as, anti-money laundering and counter terrorism financing, sharing of information, personal account trading by employees of the Bank and whistleblowing.

The Compliance risk function reports to the BRMC.

#### III. Third Line of Defence

The third line of defence is provided by the Internal Audit Department ("IAD") who reports directly to the BAC, as well as indirectly to Shariah Committee with regards to Shariah matters. It entails independent challenge, audit of key controls, formal reporting on assurance, and audit of assurance providers.

The function provides independent, objective assurance and consulting activities to add value and improve the Bank's operations. It assists the Bank accomplish its objectives by bringing a systematic, objective and disciplined approach to evaluate and improve the effectiveness of risk management, internal control, anti-corruption, whistle-blowing and governance processes.

The internal audits are conducted in accordance with the annual audit plan as approved by the BAC. Ad-hoc audits are also conducted on a need basis as or when it is required by the Board and BNM.

The internal audit function adopts a risk-based approach in its audit planning. Audit reports are tabled to the BAC reporting on the state of the Bank's internal control and the extent of compliance with the established policies and procedures as well as regulatory requirements. In addition, the function duly monitors the implementation of the Management action plans which seek to address the weaknesses identified by the internal auditors.

In addition, independent challenge and audit of key controls may also be performed by the Head Office internal auditor and the external auditor.

# **Internal Control Framework (continued)**

#### **Key Internal Control Processes**

The key processes that the Board has established in reviewing the adequacy and integrity of the system of internal control, including compliance with applicable laws, regulations, rules and guidelines, are as follows:

#### **BRMC**

BRMC is a Board Committee chaired by an Independent and Non-Executive Board member. The Committee is delegated with oversight authority by the Board of Directors, in discharging its overall duties and responsibilities. The Committee monitors and evaluates the effectiveness of the risk management system, compliance function and operations on an on-going basis. This Committee also decides and recommends to the Board for approval, where appropriate, all matters related to establishment, amendment and abolition of policies, risk and compliance management related frameworks, risk appetites and key risk indicators adopted to monitor risk and compliance exposure of the Bank.

#### **BAC**

BAC is a Board Committee supported by IAD to provide an independent assessment of the adequacy and reliability of the Bank's internal controls, risk management processes, compliances with control and risk policies and regulatory requirements.

The BAC deliberates on findings and recommendations proposed by the internal and external auditors. The BAC also evaluates the adequacy and effectiveness of the Bank's risk management and system of internal control. Apart from reviewing the annual audit plan, the BAC assesses the scope and quality of audits performed.

#### **BNRC**

The BNRC is a Board Committee that supports the Board by being tasked with providing formal and transparent procedures for the appointment, performance evaluation and recommending remuneration and compensation of Directors, President/CEO, key senior management officers, senior officers, members of the Shariah Committee and the Company Secretary in ensuring that compensation is competitive and consistent with the Bank's culture, objectives and strategy.

The BNRC also conducts assessment on the effectiveness of individual Directors, the Board as a whole, and members of the Shariah Committee.

# **Internal Control Framework (continued)**

#### **Key Internal Control Processes (continued)**

#### **Shariah Committee**

Shariah Committee is responsible to advise the Board and to provide input to the Bank on Shariah matters in order for the Bank to comply with Shariah principles in its Islamic banking activities at all times. The Shariah Committee is supported by the Shariah Secretariat that, inter alia, includes personnel carrying out the functions of a Shariah Adviser and Shariah Researcher. ShC is also responsible to assess the work carried out by the Bank appointed Shariah Reviewer and Shariah Auditor in order to ensure the Bank is Shariah compliant in its operations under the Islamic Banking Window and International Currency Business Unit arrangement.

#### Senior Management and other Management Committees

The President/CEO, assisted by the Deputy President and Deputy CEO, manages the strategic direction and provides strategic guidance to the business of the Bank.

The President/CEO provides direction and awareness of internal control and compliance via the RMC, ALCO, BCMC, OPC, SC and ITC.

#### i. RMC

The objective of RMC is to support BRMC and the Board with regards to meeting the risk management and compliance requirements as set out in BNM's policy documentations on Risk Governance and Compliance in particular, and other regulatory policy documents. RMC is also responsible to decide on important risk management and compliance matters, including matters related to various principal policies on risk management, that are within the scope as delegated by the Board. Existence or occurrence of matters or issues deemed material will be escalated to the Board or any of its Committees for further deliberation and decision.

#### ii. ALCO

The main objective of ALCO is to ensure that the Bank's asset and liability exposures to interest rate risk and liquidity risk are within the risk appetites and policies defined by the Board. It includes analysis of risk appetites, revenue targets and rates of return where areas of coverage include capital ratios, liquidity position and asset mix, rate-setting policy for loans and deposits, and investment guidelines for banking portfolio.

#### iii. BCMC

The purpose of BCMC is to provide leadership, direction and oversight in ensuring that effective business continuity management ("BCM") practices, recovery and resumption procedures are in place for continuation of critical business functions shall a major disruption occur. BCMC provides for a forum to deliberate the effectiveness of the Bank's BCM programs and to timely escalate issues/concerns to the Board for deliberation and oversight.

# **Internal Control Framework (continued)**

**Key Internal Control Processes (continued)** 

# Senior Management and other Management Committees (continued)

#### iv. OPC

The OPC is a dedicated committee that monitors activities and operational controls of the back-office operations and security control services that are outsourced to SMBC SSC Sdn. Bhd.. The Committee also deliberates the key issues and challenges besides reviewing the key performance indicators results and performance assessment for each of the outsourced operational functions. The Committee also monitors the risks and controls from the outsourcing arrangements to minimize operational and processing risks.

#### v. SC

The objective of SC is to support the Board to make the decision for oversight and management of the Bank in relation to sustainability. SC shall take charge and be responsible to establish sustainability related starategies including Environmental, Social and Governance ("ESG") solution to the clients, capacity building and communications to the stakeholders. The Committee is also responsible to supervise governance framework related to environmental risk management and monitor the progress of sustainability initiatives.

# vi. ITC

The ITC shall take charge and be responsible of the following functions and its Meeting will be held on a quarterly basis:-

- a. To report the progress of main IT activities updates/ issues/ action plans;
- b. To provide information on occurrence of IT incident that affect the Bank's banking business;
- c. To provide timely information/ updates relating to the progress of Audit matters;
- d. To report the IT budget for investment budget and expense budget; and
- e. To deliver the prevailing main topic of cyber/ technology risk related matter by the Chief Information Security Officer ("CISO").

# **Internal Control Framework (continued)**

#### **Key Internal Control Processes (continued)**

#### **Internal Policies and Procedures**

Clearly documented internal policies and procedures of all departments have been approved by the Board. These policies and procedures which are easily accessible through the Bank's intranet serves as a day-to-day operational guide to ensure compliance with internal controls and the applicable laws and regulations. Annual reviews are conducted to ensure that the policies and procedures are up-to-date with the practices as embraced; in ensuring operational efficiency and effectiveness; and to take into account the changing regulatory requirements, risks and external environment to continuously strengthen internal control.

#### **New Product Process Policies and Procedures**

All new products undergo the requirements as per the Bank's new product process policy and procedures. All risks associated with the new products are identified and managed using the appropriate assessment and mitigation practices with assessments from the Risk Management Departments, Planning Department and the Islamic Banking Department in regards to Islamic products. Legal Department and Compliance Department provides legal advisory and regulatory compliance review respectively.

In the process, all new products are subjected to adequate assessment with respect to their suitability from the business perspective, compliance with laws and regulatory guidelines and that the operations and processes contain sufficient controls to ensure that there are no unlawful activity involving money laundering or financing of terrorism. The overall assessment on the proposed new product or variation to existing products will be undertaken by the Chief Risk Officer ("CRO"), whereby in relation to the latter the CRO will also determine whether the proposed variation is significantly material tantamounting to a new product that requires prior approval from BNM before the launching thereof.

The new products are tabled at the RMC for deliberation prior to the approval of the President/CEO followed by the approval of the Board for conventional banking products and to the Shariah Committee and Board for approval in regards to Islamic products.

Annual review of all products is performed to review and assess the products' business performance and management of risks.

# **Internal Control Framework (continued)**

#### **Key Internal Control Processes (continued)**

#### Compliance

The compliance culture of the Bank is driven with a strong tone from the top to ingrain the expected values and principles of conduct that shape the behaviour and attitude of employees at all level of business and activities across the Bank.

The Bank takes a firm stand in advocating a compliance culture as compliance is the responsibility of all employees. All business lines and functions within the Bank are to carry out their responsibilities to ensure effective management of compliance risk.

The Compliance function is to promote the culture of compliance with legal and regulatory requirements, compliance related policies and procedures and ethical standards in the conduct of business.

In order to continuously drive improvement in the level of conduct and culture within the Bank, a Conduct and Culture Working Group, consisting of the Head of Internal Control ("HIC"), Chief Compliance Officer ("CCO"), Head of Human Resources and Head of Operational Risk, was established in 2020. The Bank has introduced a framework to ensure that efforts taken achieve the ultimate goal to improve and enhance the level of good conduct and culture within the Bank, which consist of the undertaking of an annual survey, the analysis of the outcome to determine key areas of focus for improvement and the formulation of an annual action plan to be implemented to drive the desired results. The annual action plan is duly presented to the Senior Management and approved by the President/CEO accordingly. The Bank has also introduced the Culture Award to recognise employees of the Bank that had exemplified the appropriate conduct and culture, as per SMBC Group's 5 principles, during the course of them discharging their daily responsibilities at work.

The Compliance Department of the Bank is responsible for ensuring that controls to manage compliance risk are adequate and operating as intended. Upon issuance of new regulatory guidelines, the Compliance Department will facilitate gap analysis and the establishment of relevant control processes with the relevant stakeholders.

The Bank has in place a Compliance Manual which serves as a reference to all employees of the legal and regulatory requirements of which the Bank has to comply when conducting business, and the internal rules and procedures for conduct of its employees. The Compliance Manual is subjected to annual review.

#### **Internal Control Framework (continued)**

#### **Key Internal Control Processes (continued)**

#### **Whistle Blowing Policy**

The Bank has put in place a Whistle Blowing policy and procedure manual. The BRMC Chairman, who is an Independent Non-Executive Director, has been appointed to be responsible person for the effective implementation of the policy. The policy and procedure defines the means and methods for reporting of the allegations, the protection accorded to whistle-blowers and the duties and responsibilities of Directors, officers and employees. The outcomes of all investigations are to be reported to the Board or its appointed Committee.

#### Anti-Money Laundering / Counter Financing of Terrorism ("AML / CFT")

Policies and procedures on the Prevention of Money Laundering & Terrorist Financing are established to prevent money laundering and terrorist financing, and operate and manage businesses in accordance with the law and regulations.

It is the general principle of the Bank that no banking business will be carried out for a customer unless the Bank knows the customer. The "Know Your Customer" policy helps build the Bank's relationship with customers and in ensuring that the Bank is in compliance with all applicable laws and regulations and adhere to sound banking practices. A system is in place to profile, monitor and review of information in support of the Bank's AML / CFT activities.

The Compliance Department of the Bank provides training to facilitate all staff's understanding of the laws and regulations in relation to money laundering, terrorist financing and sanction laws.

All new staff are required to read and understand the policies and procedures on the Prevention of Money Laundering & Terrorist Financing and complete the requisite AML / CFT training upon joining the Bank. All staff undergo AML / CFT training annually.

#### **Anti-Corruption and Bribery Policy Statement**

This policy statement was developed and approved by the Board to set the "tone from the top" with regards to the Bank's zero tolerance towards bribery and corruption. Further, it establishes the internal framework required to maintain "adequate procedures" to robustly manage and mitigate potential risk arising from practices within the Bank that may be considered as promoting the culture of bribery and corruption.

#### **Internal Control Framework (continued)**

#### **Key Internal Control Processes (continued)**

#### **Human Resources Policies and Procedures**

The Human Resources ("HR") policies and procedures are established in covering the full process of human resource management such as the recruitment, learning and development, performance management, compensation and benefits, termination of employment which includes resignation and dismissal of staff due to disciplinary action. The policies and procedures which are subjected to annual review are readily available for staff through the Bank's intranet.

#### i. Code of Ethics and Conduct, Employee Handbook and Office Rules

The HR policies and procedures also include the Bank's Code of Ethics and Conduct which set forth the standard of behaviors, ethics and conduct expected of its employees. All new staff are required to acknowledge their understanding and acceptance to abide by the Bank's Code of Ethics and Conduct on hardcopy upon joining the Bank. Subsequently, all existing staff are to declare the observance to the Code of Ethics and Conduct annually. In addition, all new staff are to abide by the employee handbook and office rules of the Bank.

#### ii. Employee Assessment Framework

The evaluation of a prospective employee's personal information, including criminal records, employment and financial background is part of the HR recruitment process as documented in the Bank's HR policies and procedures. Employment reference checks and screening procedures are carried out prior to hiring the employee. The screening procedures also apply throughout the course of employment where existing employees are screened annually.

#### **Business Continuity Management**

The Planning Department of the Bank ensures that there is a Business Continuity Plan ("BCP") in place to facilitate continuity of critical business operations and systems in the event of prolonged disruption to the business. The department spear-heads the Business Impact Assessment of the Bank's operations to identify the activities and operations that are critical to the continuity of the Bank's operations. The department manages the Business Continuity Management activities for the Bank's operations and ensures that all mandatory BCP and Disaster Recovery Plan drills are successfully carried out. The Bank has subscribed to a Disaster Recovery site which serves as the back-up site, with an independent service provider.

# **Internal Control Framework (continued)**

**Key Internal Control Processes (continued)** 

# Risk Control Self-Assessment ("RCSA") and Key Control Testing ("KCT")

RCSA tool is used to assist the Bank's departments to identify and assess their operational risk which are inherent in their work processes, activities, services, products and systems in a documented and systematic manner. The RCSA also enables the departments to assess the effectiveness of their controls to mitigate the operational risks. The implementation of RCSA is facilitated by the Operational Risk Management Department ("ORM") where it provides operational support on risk and control assessments, which will lead to formulation of action plans by the relevant departments to mitigate and manage the identified operational risks.

As the risk awareness levels improve amongst the risk owners, ORM will progress to conduct "deep dive" reviews of specific high risk areas, with the objectives to improve control effectiveness and reduce risk levels.

Another assessment tool which has been implemented is KCT, where the controls are being checked / assessed to ensure they are in place and working as intended. The checking / assessment is done either respective BCO or ORM.

The outcome of the RCSA and KCT are presented to Management and BRMC.

# Loss Database and Key Risk Indicator ("KRI")

The Bank has in place a Loss Database i.e. a loss incident reporting database, which captures and tracks the actual and potential operational risk-related losses, including near miss incidents. Major or high frequency loss events are investigated and analyzed against past records and trends to identify high risk areas and to take action to mitigate the risk. Preventive measures and additional controls, if any, are tracked for completion and effectiveness.

In addition, the Bank also monitors operational risk trends via its KRI reporting, which involves collecting transactional data at prescribed frequencies over a period of time to observe the trending of business or transaction activities. Management limits and thresholds are determined to pre-empt and / or alert the departments on additional controls to be implemented to mitigate operational risks.

Loss incidents and KRI are duly reported to the Management and the BRMC.

# **Internal Control Framework (continued)**

**Key Internal Control Processes (continued)** 

# **Key Control Related Initiatives Of Financial Year 2023**

The key control intiatives that were implemented in FY 2023 are as follows:

# i. Establishment of IT related departments within the Bank

Historically, IT related functions of the Bank had been outsourced to SMBC SSC, a sister company of the Bank. With greater regulatory focus on the area of IT resilience, cybersecurity and such other requirements as prescribed by BNM under the Risk Management in Technology Policy Document, the Bank has decided to establish its own IT related departments and to strengthen the control and governance framework surrounding the area of IT.

This exercise includes the establishment of the Technology Governance Services Department ("TGS"), Technology Enabler Services Department ("TES"), Application Delivery Services Department ("ADS") and IT Risk Management Department ("IRM"). Part of this exercise also entailed the realigning of the reporting line of the Chief Information Security Officer from the President/CEO to BRMC. This is undertaken to give additional prominence and recognition that IT risk is one of the top risks that the Bank is exposed to and has seen increased criticality across the banking industry, and globally for the matter, with increase in cyberattack incidences and IT systems failure that resulted in severe impact on banks to continue to operate and provide banking services to their customers.

With the setting up of these IT departments, the Bank's governance framework had also evolved by the setting up of the ITC and the restructuring of the previous Systems and Operations Planning Committee ("SOPC") to OPC, whereby the latter now focuses more on operational related matters, particularly the outsourced services to SMBC SSC.

# ii. Establishment of Enterprise Risk Management Department

In order to develop greater depth in risk management by the Bank, a decision was taken to establish the Enterprise Risk Management Department ("ERM"). Besides being responsible for Risk Management Planning and Wholesale Market Surveillance, which are newly established sections, ERM will also assume the responsibility to conduct the ICAAP and stress testing from Market Risk Management Department ("MRM"). To support this extended structure within the Bank's risk management portfolio, the Bank had also created a new Deputy Chief Risk Officer ("DCRO") role to provide additional support to the CRO and ERM will report directly to the DCRO.

With the issuance of the Wholesale Market Conduct Practices Guidance Document, the Bank aspires to implement the proposed guidance contained therein, even though they have yet to be treated as standards that require mandatory adherence by all banks in Malaysia. To this end, the Bank had also established a Market Conduct Working-Level Committee which tracks predetermined key risk indicators to monitor the state of the Bank's wholesale market conduct by its Treasury team and other relevant stakeholders. Further, the Bank has established a Market Conduct Risk Assessment framework and produced the inaugural report thereto, which was duly presented to the BRMC on 23 May 2023.

# **Internal Control Framework (continued)**

**Key Internal Control Processes (continued)** 

# **Key Control Related Initiatives Of Financial Year 2023 (continued)**

### iii. Establishment of a Fraud Risk Governance Policy

With increase in the number of fraud incidences faced by the banking industry in Malaysia, although the Bank has not seen any fraud exposure in the past, the Bank has proceeded to enhance its internal control framework around the governance of fraud risk. The rolling out of the Fraud Risk Governance Policy entails the setting up of a Fraud Working-Level Committee to coordinate, investigate, monitor and escalate fraud incidences to the Senior Management, RMC, BRMC and Board. This fraud governance framework applies to both instances of external and internal fraud.

[The remainder of this page is intentionally left blank]

# Remuneration

The Remuneration policy of the Bank outlines the mandatory requirements that must be reflected in the design and management of performance and remuneration arrangement in the Bank. Our remuneration strategy is designed to enable the Bank to attract and retain talents, motivate them to achieve the Bank's long terms goals, support compliance and good corporate governance and promotes effective risk management. The Policy supports a high performance culture based on merit which takes into account employee conduct / behavior, adherence to SMBC's Core Values, differentiates and rewards excellent performance.

# **Components of remuneration**

Employee remuneration is composed of two main components - fixed and variable:

Fixed	Consist of monthly base salary and fixed allowances	Determined by individual's roles and responsibilities, experience and skills, competency and market competitiveness. It should also reflect core performance requirements and expectations.
Variable	Annual performance bonus in cash	Performance-based and not guaranteed, reflecting overall bank's performance and individual performance.  Purpose of the performance bonus is to drive a high performance culture based on merit which takes into account effective risk management practices, adherence to high conduct and ethical standards, and SMBC's Core Values. Variable pay recommendations of an employee shall consider all risk (including misconduct) issues that have materialised during the year.

#### Measurement of performance

With oversight and review by the Board, the Bank has a holistic approach of performance assessment and development, in order to drive a high performance, right values / behaviour and motivated workforce, where both the Bank and employees share the responsibility for success.

The Bank's key indicators are cascaded down to the business and support departments and eventually to each individual employee in the Bank via the Individual Performance Appraisal process. The performance management framework – goal setting consists of:

- WHAT (ability to achieve hard performance targets)
- HOW (how these performance targets are achieved)
- Risk & Compliance is an over-arching requirement that will be evaluated and affect individual's overall performance rating. It is embedded in both WHAT and HOW.

The risk and control functions of IT Risk Management, Credit Review, Internal Audit, Compliance and Risk Management operate independently from the business departments. Their performance assessment is based principally on the achievement of the objectives of their job functions and reviewed independently by the BAC and the BRMC.

# Remuneration (continued)

#### Linkage between performance and remuneration

To inculcate a high performance driven culture, the performance bonus payment is closely linked to overall performance of the Bank and performance of the individual based on achievement of KPIs set for the financial year which takes into account employee conduct / behaviour and adherence to SMBC's Core Values. An individual's performance bonus may be further adjusted based on non-compliance findings or due to disciplinary action.

Remuneration of senior management and local employees are reviewed by the BNRC and approved by the Board of Directors while remuneration of the Heads of the risk and control functions are reviewed by their respective Board committees i.e. BAC and BRMC.

#### Summary of remuneration outcomes for the financial year ended 31 March 2023

For the purpose of disclosure on remuneration as per BNM's Policy on Corporate Governance, the following are the payments for the financial year ended 31 March 2023:

Table 1: Guaranteed bonuses, sign-on bonuses and severance payments

Category	Senior Officers *	Other Material Risk Takers **
Number of guaranteed bonuses	Nil	Nil
Number of sign-on bonuses	Nil	Nil
Number of severance payments	Nil	Nil

- \* Senior Officers of the Bank are defined as Deputy Chief Executive Officer, Deputy President, Head of Corporate Banking, Head of Treasury, Head of Internal Control, Head of Information Technology, Chief Risk Officer, Chief Compliance Officer, Chief Internal Auditor and Chief Information Security Officer.
- \*\* Other Material Risk Takers ("OMRTs") are defined as employees whose responsibilities have material impact on the Bank and risk profile, and employees whose responsibilities require them to take on material risk exposure on behalf of the Bank.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 MARCH 2023

Sumitomo Mitsui Banking Corporation Malaysia Berhad ("the Bank") is a public limited company, incorporated and domiciled in Malaysia. The address of its registered office and principal place of business is Suite 22-03, Level 22, Integra Tower, The Intermark, 348, Jalan Tun Razak, 50400 Kuala Lumpur.

The Bank is principally engaged in the provision of banking and related financial services.

The immediate and ultimate holding corporations during the financial year are Sumitomo Mitsui Banking Corporation and Sumitomo Mitsui Financial Group, Inc. respectively. Both corporations are incorporated in Japan.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the Directors on 4 September 2023.

# 1. Basis of preparation

# (a) Statement of compliance

The financial statements of the Bank have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

The following are accounting standards, interpretations and amendments of the MFRSs that have been issued by the Malaysian Accounting Standards Board ("MASB") but have not been adopted by the Bank.

# MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2023

- MFRS 17, Insurance Contracts
- Amendments to MFRS 17, Insurance Contracts Initial application of MFRS 17 and MFRS 9 – Comparative Information
- Amendments to MFRS 101, Presentation of Financial Statements Classification of Liabilities as Current or Non-current and Disclosures of Accounting Policies
- Amendments to MFRS 108, Accounting Policies, Changes in Accounting Estimates and Errors – Definition of Accounting Estimates
- Amendments to MFRS 112, Income Taxes Deferred Tax related to Assets and Liabilities arising from a Single Transaction and International Tax Reform Pillar Two Model Rules

# 1. Basis of preparation (continued)

# (a) Statement of compliance (continued)

# MFRSs, interpretations and amendments effective for annual periods beginning on or after 1 January 2024

- Amendment to MFRS 16, Leases Lease Liability in a Sale and Leaseback
- Amendment to MFRS 101, Presentation of Financial Statements Non-current Liabilities with Covenants and Classification of Liabilities as Current or Non-current

# MFRSs, interpretations and amendments effective for annual periods beginning on or after a date yet to be confirmed

 Amendments to MFRS 10, Consolidated Financial Statements and MFRS 128, Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The Bank plans to apply the abovementioned accounting standards, interpretations and amendments, where applicable:

- from the annual period beginning on 1 April 2023 for the accounting standard and amendments that are effective for annual periods beginning on or after 1 January 2023, except for MFRS 17 and amendments to MFRS 17 which are not applicable to the Bank.
- from the annual period beginning on 1 April 2024 for the amendments that are effective for annual periods beginning on or after 1 January 2024.

The initial application of the abovementioned accounting standards, amendments or interpretations are not expected to have any material financial impact to the current period and prior period financial statements of the Bank.

# 1. Basis of preparation (continued)

#### (b) Basis of measurement

The financial statements have been prepared on the historical cost basis other than as disclosed in Note 2.

# (c) Functional and presentation currency

The financial statements are presented in Ringgit Malaysia ("RM"), which is the Bank's functional currency. All financial information is presented in RM and has been rounded to the nearest thousand, unless otherwise stated.

# (d) Use of estimates and judgements

The preparation of the financial statements in conformity with MFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

There are no significant areas of estimation uncertainty and critical judgements in applying accounting policies that have significant effect on the amounts recognised in the financial statements other than those disclosed in the following notes:

- Note 3 Allowance for expected credit losses on cash and short-term funds
- Note 4 Allowance for expected credit losses on deposits and placements with banks and other financial institutions
- Note 6(m) Allowance for expected credit losses on loans, advances and financing
- Note 15 Provision for credit commitments and contingencies
- Note 33 Fair value of financial assets and financial liabilities

#### (e) Revised Policy Document on Capital Adequacy Framework

On 9 December 2020, Bank Negara Malaysia ("BNM") issued the revised Policy Document on Capital Adequacy Framework ("Capital Components") which is applicable to all licensed banks, licensed investment banks and financial holding companies in Malaysia, which came into effect immediately and shall be applied prospectively. The revised Policy Document was updated to include transitional arrangements for regulatory capital treatment of accounting provisions. Financial institutions which elected to apply the transitional arrangements are allowed to add back a portion of the Stage 1 and Stage 2 provisions for expected credit losses ("ECL") to Common Equity Tier 1 Capital over a four-year period from financial year beginning 2020 or a three-year period from financial year beginning 2021.

For the financial year ended 31 March 2023, the Bank did not elect to apply the transitional arrangement.

# 2. Significant accounting policies

The accounting policies set out below have been applied consistently to the periods presented in these financial statements, unless otherwise stated.

# (a) Financial instruments

# (i) Classification and measurement of financial assets and liabilities

The Bank classifies its financial assets into the following measurement categories:

- Amortised cost
- Fair value through other comprehensive income ("FVOCI"); and
- Fair value through profit or loss ("FVTPL")

Financial liabilities are classified as either:

- Amortised cost; or
- Fair value through profit or loss ("FVTPL")

Management determines the classification of its financial assets and liabilities at initial recognition of the instruments and they are not reclassified subsequent to their initial recognition unless the Bank changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change of the business model.

#### Fair value of financial assets and liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal market for the asset or liability, or in the absence of a principal market, the most advantageous market to which the Bank has access at that date. The fair value of a liability includes the risk that the Bank will not be able to honour its obligations.

The fair value of financial instruments is generally measured on the basis of the individual financial instrument. However, when a group of financial assets and financial liabilities is managed on the basis of its net exposure to either market risk or credit risk, the fair value of the group of financial instruments is measured on a net basis.

The fair values of quoted financial assets and liabilities in active markets are based on current prices. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. If the market for a financial instrument is not active, the Bank establishes fair value by using valuation techniques.

# (a) Financial instruments (continued)

#### (i) Classification and measurement of financial assets and liabilities (continued)

## Recognition and initial measurement

A financial asset or a financial liability is recognised in the statement of financial position when, and only when, the Bank becomes a party to the contractual provisions of the instrument.

Purchases and sales of financial assets and liabilities held at FVTPL, and debt securities classified as financial assets held at FVOCI are initially recognised on the trade date (the date on which the Bank commits to purchase or sell the asset). Loans and advances and other financial assets held at amortised cost are recognised on settlement date (the date on which cash is advanced to the borrowers).

All financial instruments are initially recognised at fair value, which is normally the transaction price, plus directly attributable transaction costs for financial assets which are not subsequently measured at FVTPL.

In certain circumstances, the initial fair value may be based on a valuation technique which may lead to the recognition of profits or losses at the time of initial recognition. However, these profits or losses can only be recognised when the valuation technique used is based solely on observable market data. In those cases where the initially recognised fair value is based on a valuation model that uses unobservable inputs, the difference between the transaction price and the valuation model is not recognised immediately in profit or loss but is amortised or released to profit or loss as the inputs become observable, or the transaction matures or is terminated.

# (a) Financial instruments (continued)

#### (i) Classification and measurement of financial assets and liabilities (continued)

#### Recognition and initial measurement (continued)

An embedded derivative is recognised separately from the host contract where the host contract is not a financial asset, and accounted for separately if, and only if, the derivative is not closely related to the economic characteristics and risks of the host contract and the host contract is not measured at FVTPL. The host contract, in the event an embedded derivative is recognised separately, is accounted for in accordance with policy applicable to the nature of the host contract.

#### (A) Financial assets held at amortised cost

Amortised cost category comprises financial assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and their contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding ("SPPI"). The financial assets are not designated as FVTPL.

In assessing whether the contractual cashflows have SPPI characteristics, the Bank considers the contractual terms of the instrument. This includes assessing whether the financial asset contains contractual terms that could change the timing or amount of contractual cash flows such that it would not meet this condition.

The Bank makes an assessment of the objective of a business model in which an asset is held at the individual product business line, and where applicable within business lines depending on the way the business is managed and information is provided to management.

# (B) Financial assets held at FVOCI

FVOCI category comprises debt investments that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling the debt investments, and their contractual terms give rise on specified dates to cash flows that are SPPI. The debt investments are not designated at FVTPL.

In assessing whether the contractual cashflows have SPPI characteristics, the Bank considers the contractual terms of the instrument. This includes assessing whether the financial asset contains contractual terms that could change the timing or amount of contractual cash flows such that it would not meet this condition.

The Bank makes an assessment of the objective of a business model in which an asset is held at the individual product business line, and where applicable within business lines depending on the way the business is managed and information is provided to management.

# (a) Financial instruments (continued)

#### (i) Classification and measurement of financial assets and liabilities (continued)

## (C) Financial assets and liabilities held at FVTPL

Financial assets which are not held at amortised cost or that are not held at FVOCI are held at FVTPL. Financial assets and liabilities held at FVTPL are either mandatorily classified at FVTPL or irrevocably designated at FVTPL at initial recognition.

## Mandatorily categorised as FVTPL

Financial assets and liabilities which are mandatorily measured at FVTPL include:

- Financial assets and liabilities held for trading, which are those acquired principally for the purpose of selling in the short term;
- Derivative financial assets and liabilities except for a derivative that is a designated and effective hedging instrument;
- Financial assets that give rise to cash flows that are not SPPI;
- Equity instruments that have not been designated as held at FVOCI; and
- Financial liabilities that constitute contingent consideration in a business combination.

#### Designated at FVTPL at initial recognition

Financial assets and liabilities may be designated at FVTPL when the designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities on a different basis ("accounting mismatch").

Interest rate swaps have been acquired with the intention of significantly reducing interest rate risk on certain loans and advances and debt securities with fixed rates of interest. To significantly reduce the accounting mismatch between assets and liabilities and measurement bases, these loans and advances and debt securities have been designated at FVTPL.

Financial liabilities may also be designated at FVTPL where they are managed on a fair value basis or have a bifurcately embedded derivative where the Bank is not able to separately value the embedded derivative component.

# (a) Financial instruments (continued)

#### (i) Classification and measurement of financial assets and liabilities (continued)

## (D) Financial liabilities held at amortised cost

Financial liabilities that are not financial guarantees or loan commitments and that are not classified as financial liabilities held at FVTPL are classified as financial liabilities held at amortised cost.

# (E) Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Financial guarantees issued are initially measured at fair value. Subsequently, they are measured at higher of:

- the amount of the loss allowance; and
- the amount initially recognised less, when appropriate, the cumulative amount
  of income recognised in accordance to the principles of MFRS 15, Revenue
  from Contracts with Customers.

Liabilities arising from financial guarantees are presented together with other provisions.

#### Subsequent measurement

#### (A) Financial assets and financial liabilities held at amortised cost

Financial assets and financial liabilities held at amortised cost are subsequently carried at amortised cost using the effective interest rate method. Foreign exchange gains and losses and impairment losses are recognised in profit or loss.

Where a financial instrument carried at amortised cost is the hedged item in a qualifying fair value hedge relationship, its carrying value is adjusted by the fair value gain or loss attributable to the hedged risk.

# (B) Financial assets measured at FVOCI

Debt investments held as measured at FVOCI are subsequently carried at fair value, with all unrealised gains and losses arising from changes in fair value (excluding any related foreign exchange gains or losses) recognised in other comprehensive income and accumulated in a separate component of equity. Changes in expected credit losses are recognised in profit or loss and are accumulated in a separate component of equity. On derecognition, the cumulative fair value gains or losses, net of the cumulative expected credit loss reserve, are transferred to profit or loss.

# (a) Financial instruments (continued)

#### (i) Classification and measurement of financial assets and liabilities (continued)

## (C) Financial assets and financial liabilities measured at FVTPL

Financial assets and financial liabilities mandatorily held at FVTPL and financial assets designated at FVTPL are subsequently carried at fair value, with gains and losses arising from changes in fair value recorded in the net trading income line in profit or loss unless the instrument is part of a cash flow hedging relationship. Contractual interest income on financial assets held at FVTPL is recognised as interest income in a separate line in profit or loss.

# (D) Financial liabilities designated at FVTPL

Financial liabilities designated at FVTPL are measured at fair value, with changes in fair value recognised in the net trading income line in profit or loss, other than those attributable to changes in credit risk. Fair value changes attributable to credit risk are recognised in other comprehensive income and recorded in a separate category of reserves unless this is expected to create or enlarge an accounting mismatch, in which case the entire change in fair value of the financial liability designated at FVTPL is recognised in profit or loss.

#### (ii) Reclassifications

Financial liabilities are not reclassified subsequent to initial recognition.

Reclassifications of financial assets are made when, and only when, the business model for those assets changes. Such changes are expected to be infrequent and arise as a result of significant external or internal changes such as the termination of a line of business or the purchase of a subsidiary whose business model is to realise the value of pre-existing held for trading financial assets through a hold to collect model.

Financial assets are reclassified at their carrying value on the date of reclassification and previously recognised gains and losses are not restated. Moreover, reclassifications of financial assets between financial assets held at amortised cost and financial assets held at FVOCI do not affect effective interest rate or expected credit loss computations.

# (a) Financial instruments (continued)

#### (ii) Reclassifications (continued)

## (A) Reclassified from amortised cost

Where financial assets held at amortised cost are reclassified to financial assets held at FVTPL, the difference between the fair value of the assets at the date of reclassification and the previously recognised amortised cost is recognised in profit or loss.

For financial assets held at amortised cost that are reclassified to FVOCI, the difference between the fair value of the assets at the date of reclassification and the previously recognised gross carrying value is recognised in other comprehensive income. Additionally, the related cumulative expected credit loss amounts relating to the reclassified financial assets are reclassified from loan loss provisions to a separate reserve in other comprehensive income at the date of reclassification.

## (B) Reclassified from FVOCI

Where financial assets held at FVOCI are reclassified to financial assets held at FVTPL, the cumulative gain or loss previously recognised in other comprehensive income is transferred to profit or loss.

For financial assets held at FVOCI that are reclassified to financial assets held at amortised cost, the cumulative gain or loss previously recognised in other comprehensive income is adjusted against the fair value of the financial asset such that the financial asset is recorded at a value as if it had always held at amortised cost. In addition, the related cumulative expected credit losses held within other comprehensive income are reversed against the gross carrying value of the reclassified assets at the date of reclassification.

### (C) Reclassified from FVTPL

Where financial assets held at FVTPL are reclassified to financial assets held at FVOCI or financial assets held at amortised cost, the fair value at the date of reclassification is used to determine the effective interest rate on the financial asset going forward. In addition, the date of reclassification is used as the date of initial recognition for the calculation of expected credit losses. Where financial assets held at FVTPL are reclassified to financial assets held at amortised cost, the fair value at the date of reclassification becomes the gross carrying value of the financial asset.

# (a) Financial instruments (continued)

#### (iii) Derecognition of financial instruments

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or where the Bank has transferred substantially all risks and rewards of ownership. If substantially all the risks and rewards of ownership have been neither retained nor transferred and the Bank has retained control, the assets continue to be recognised to the extent of the Bank's continuing involvement. Where financial assets have been modified, the modified terms are assessed on a qualitative and quantitative basis to determine whether a fundamental change in the nature of the instrument has occurred, such as whether the derecognition of the pre-existing instrument and the recognition of a new instrument is appropriate.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged, cancelled or expires. A financial liability is also derecognised when its terms are modified and the cash flows of the modified liability are substantially different, in which case, a new financial liability based on modified terms is recognised at fair value. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

#### (iv) Impairment of financial assets

Expected credit losses are determined for all financial assets that are classified at amortised cost or debt instruments measured at FVOCI, undrawn commitments, financial guarantees, contract assets and other financial assets that are not measured at FVTPL. Expected credit losses are a probability-weighted estimate of credit loss.

#### **Measurement**

The estimate of expected cash shortfalls is determined by multiplying the probability of default ("PD") with the loss given default ("LGD") with the expected exposure at the time of default ("EAD"). There may be multiple default events over the life time of an instrument.

Forward-looking economic assumptions are incorporated into the PD, LGD and EAD where relevant and where they influence credit risk, such as GDP growth rates and FTSE Bursa Malaysia KLCI. These assumptions are incorporated using the Bank's most likely forecast for a range of macroeconomic assumptions. These forecasts are determined using all reasonable and supportable information, which includes those available externally.

# (a) Financial instruments (continued)

# (iv) Impairment of financial assets (continued)

# **Measurement (continued)**

To account for the potential non-linearity in credit losses, multiple forward-looking scenarios are incorporated into the range of reasonably possible outcomes for all material portfolios. For example, where there is aggregate risk of downside credit losses than upside gains, multiple forward-looking economic scenarios are incorporated into the range of reasonably possible outcomes, both in respect of determining the PD (and where relevant, the LGD and EAD) and in determining the overall expected credit loss amounts.

The period over which cash shortfalls are determined is generally limited to the maximum contractual period for which the Bank is exposed to credit risk shortfall.

For credit-impaired financial instruments, the estimate of cash shortfalls may require the use of expert credit judgement. As a practical expedient, the Bank may also measure credit impairment on the basis of an instrument's fair value using an observable market price.

Cash flows from credit enhancements held are included within the measurement of expected credit losses if they are part of, or integral to the contractual terms of the instrument. These credit enhancements include financial guarantees, risk participations and other non-derivative credit insurance. Although non-integral credit enhancements do not impact the measurement of expected credit losses, a reimbursement asset is recognised to the extent of the expected credit losses recorded.

#### Recognition

#### (A) 12-months expected credit losses (Stage 1)

Expected credit losses are recognised at the time of initial recognition of a financial instrument and represent the life time cash shortfalls arising from possible default events up to 12-months into the future from the balance sheet date. Expected credit losses continue to be determined on this basis until there is either a significant increase in the credit risk of an instrument or the instrument becomes credit-impaired. If an instrument is no longer considered to exhibit a significant increase in credit risk, expected credit losses will revert to being determined on a 12-month basis.

# (a) Financial instruments (continued)

#### (iv) Impairment of financial assets (continued)

## **Recognition (continued)**

# (B) Significant increase in credit risk (Stage 2)

If a financial asset experiences a significant increase in credit risk ("SICR") since initial recognition, an expected credit loss provision is recognised for default events that may occur over the lifetime of the asset.

Significant increase in credit risk is assessed by comparing the risk of default of an exposure at the reporting date to the risk of default at origination (after taking into account the passage of time). Significant does not mean statistically significant nor is it assessed in the context of changes in expected credit loss. Whether a change in the risk of default is significant or not is assessed using a number of quantitative and qualitative factors, the weight of which depends on the type of product and counterparty. Financial assets that are 30 or more days past due and not creditimpaired will always be considered to have experienced a significant increase in credit risk. Quantitative factors include an assessment of whether there has been significant increase in the forward-looking probability of default ("PD") since origination. A forward-looking PD is one that is adjusted for future economic conditions to the extent these are correlated to changes in credit risk. We compare the 12-months PD at the reporting date to the 12-months PD that was expected at the time of origination for the same point in the term structure and determine whether both the absolute and relative change between the two exceeds predetermined thresholds. To the extent that the differences between the measures of default outlined exceed the defined thresholds, the instrument is considered to have experienced a significant increase in credit risk.

Qualitative factors assessed include those linked to current credit risk management processes, such as lending placed on "watchlist" (and subject to closer monitoring).

A "watchlist" account is one which exhibits risk or potential weaknesses of a material nature requiring closer monitoring, supervision, or attention by Management. Weaknesses in such a borrower's account, if left uncorrected, could result in deterioration of repayment prospects and the likelihood of being downgraded. Indicators could include a rapid erosion of position within the industry, concerns over Management's ability to manage operations, weak / deteriorating operating results, liquidity strain and overdue balances amongst other factors.

# (a) Financial instruments (continued)

#### (iv) Impairment of financial assets (continued)

#### **Recognition (continued)**

#### (C) Credit-impaired (or defaulted) exposures (Stage 3)

Financial assets that are credit-impaired (or in default) represent those that are at least 90 days past due in respect of principal and / or interest. Financial assets are also considered to be credit-impaired where the obligors are unlikely to pay on the occurrence of one or more observable events that have a detrimental impact on the estimated future cash flows of the financial asset. It may not be possible to identify a single discrete event but instead the combined effect of several events may cause financial assets to become credit-impaired.

Irrevocable lending commitments to a credit-impaired obligor that have not yet been drawn down are also included within the Stage 3 credit impairment allowance to the extent that the commitment cannot be withdrawn.

Loss allowances against credit-impaired financial assets are determined based on an assessment of the recoverable cashflows under a range of scenarios, including the realisation of any collateral held where appropriate. The loss allowances held represent the difference between the present value of the cashflows expected to be recovered, discounted at the instrument's original effective interest rate, and the gross carrying value of the instrument prior to any credit impairment.

#### (v) Hedge accounting

#### Fair value hedge

A fair value hedge is a hedge of the exposure to changes in fair value of a recognised asset or liability or an unrecognised firm commitment, or an identified portion of such an asset, liability or firm commitment, that is attributable to a particular risk and could affect profit or loss.

In a fair value hedge, the gain or loss from remeasuring the hedging instrument at fair value or the foreign currency component of its carrying amount translated at the exchange rate prevailing at the end of the reporting period is recognised in profit or loss. The gain or loss on the hedged item, except for a hedged item categorised as FVOCI, attributable to the hedged risk is adjusted to the carrying amount of the hedged item and recognised in profit or loss.

For a hedged item categorised as FVOCI, the fair value gain or loss attributable to the hedged risk is recognised in profit or loss.

Fair value hedge accounting is discontinued prospectively when the hedging instrument expires or is sold, terminated or exercised, the hedge is no longer highly effective or the hedge designation is revoked.

# (a) Financial instruments (continued)

# (v) Hedge accounting (continued)

## Specific policies for hedges affected by IBOR reform

# (A) Interest Rate Benchmark Reform (Amendments to MFRS 9, MFRS 139 and MFRS 7) the Phase 1 amendments

The Bank has applied the interbank offered rate ("IBOR") reform Phase 1 reliefs to hedging relationships directly affected by IBOR reform during the period before the replacement of an existing interest/profit rate benchmark with an alternative risk-free rate ("RFR"). A hedging relationship is affected if IBOR reform gives rise to uncertainties about the timing and/or amount of benchmark-based cash flows of the hedged item or the hedging instrument. The reliefs require that for the purpose of determining whether a forecast transaction is highly probable, it is assumed that the IBOR on which the hedged cash flows are based is not altered as a result of IBOR reform.

The Bank assumes that for the purpose of assessing expected future hedge effectiveness, the interest / profit rate is not altered as a result of IBOR reform. The Bank does not discontinue the hedging relationship if the results of the assessment of retrospective hedge effectiveness falls outside the monitoring threshold, although any hedge ineffectiveness must be recognised in profit or loss, as normal.

The reliefs cease to apply once certain conditions are met. These include when the uncertainty arising from IBOR reform is no longer present with respect to the timing and amount of the benchmark-based cash flows of the hedged item, if the hedging relationship is discontinued or once amounts in the cash flow hedge reserve have been released.

# (B) Interest Rate Benchmark Reform (Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16) the Phase 2 amendments

When the basis of determining the contractual cash flows of the hedged item or hedging instrument changes as a result of IBOR reform and therefore there is no longer uncertainty arising about the cash flows of the hedged item or hedging instrument, the Bank amends the hedge documentation of that hedging relationship to reflect changes required by IBOR reform. For this purpose, the hedge designation is amended only to make one or more of the following changes:

- designating an alternative benchmark as the hedged risk;
- updating the description of the hedge item, including the description of the designated portion of the cash flows or fair value being hedged;
- updating the description of the hedge instrument; or
- updating the description of how the entity will assess hedge effectiveness.

# (a) Financial instruments (continued)

# (v) Hedge accounting (continued)

# Specific policies for hedges affected by IBOR reform (continued)

# (B) Interest Rate Benchmark Reform (Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16) the Phase 2 amendments (continued)

The Bank amends the description of the hedging instrument only of the following conditions are met:

- it makes a change required by IBOR reform by using an approach other than changing the basis of determining the contractual cash flows of the hedging instruments;
- the chosen approach is economically equivalent to changing the basis for determining the contractual cash flows of the original hedging instrument;
- the original hedging instrument is not derecognised.

The Bank amends the formal hedge documentation by the end of the reporting period during which a change required by IBOR reform is made to the hedge risk, hedged item or hedging instrument. These amendments in the formal hedging documentation do not constitute the discontinuation of the hedging relationship of the designation of a new hedge relationship.

If changes are made in addition to those economically equivalent changes required by IBOR reform described above, then the Bank considers whether those additional changes result in the discontinuation of the hedge accounting relationship. If additional changes do not result in the discontinuation of the hedge accounting relationship, then the Bank amends the formal hedge documentation for changes required by IBOR reform as mentioned above.

When the Bank changes the designation to an alternative benchmark interest rate and that rate is not a separately identifiable component at the date it is designated, the Bank deems that the rate meets the separately identifiable criterion if it reasonably expects that the rate will be separately identifiable within a 24-month period. The 24-month period applies on a rate-by-rate basis and starts from the date the Bank first designates the alternative benchmark rate as a hedged risk.

If subsequently, the Bank expects that a non-contractually specified alternative benchmark rate is to be separately identifiable within 24-month period, hedge accounting is discontinued prospectively from the date of that reassessment to all hedging relationships in which the alternative benchmark rate is designated as a risk component.

# (a) Financial instruments (continued)

# (v) Hedge accounting (continued)

# Specific policies for hedges affected by IBOR reform (continued)

# (B) Interest Rate Benchmark Reform (Amendments to MFRS 9, MFRS 139, MFRS 7, MFRS 4 and MFRS 16) the Phase 2 amendments (continued)

When the interest benchmark on which the future cash flows had been based is changed as required by IBOR reform, for the purpose of determining whether the hedged future cashflows are expected to occur, the Bank deems that the amount accumulated in the cash flow hedge reserve to be based on the alternative benchmark rate on which the hedged future cash flows will be based.

The Bank has disclosed the details of hedge accounting in Note 32.

# (b) Cash and cash equivalents

Cash and cash equivalents consist of cash in hand, bank balances and deposits maturing within one month.

# (c) Plant and equipment

#### Recognition and measurement

Items of plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Cost includes expenditures that are directly attributable to the acquisition of the assets and any other costs that are directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Construction in progress is transferred to fixed assets when it is ready for its intended use. No depreciation is provided against construction in progress.

When significant parts of an item of plant or equipment have different useful lives, they are accounted for as separate items (major components) of plant and equipment.

The gain or loss on disposal of an item of plant and equipment is determined by comparing the proceeds from disposal with the carrying amount of the item of plant and equipment, and are recognised net within 'other operating income' or 'other operating expense' respectively in profit or loss.

# (c) Plant and equipment (continued)

#### **Recognition and measurement (continued)**

Fixed assets additions for the Bank are classified into the following categories:

- Motor vehicles
- Furniture, fixtures and fittings
- Computer equipment
- Renovations

Details of each specific type of asset is manually maintained in the fixed assets register and reconciled to the general ledger.

Additions to equipment costing more than RM1,000 are depreciated at the depreciation rates below. Depreciation is calculated on a monthly basis in the same month when the assets are available for use.

## Subsequent costs

The cost of replacing a component of an item of plant or equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the component will flow to the Bank and its cost can be measured reliably. The carrying amount of the replaced component is derecognised in profit or loss. The costs of the day-to-day servicing of plant and equipment are recognised in profit or loss as incurred.

## **Depreciation**

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is recognised in the profit or loss on a straight-line basis over the estimated useful lives of each part of an item of plant and equipment since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful lives are as follows:

Motor vehicles
 Furniture, fixtures and fittings
 Computer equipment
 Renovations
 5 years
 5 - 10 years
 10 years

Depreciation methods, rates, useful lives and residual values are reassessed at each financial year end and adjusted if appropriate.

# (d) Other receivables

Other receivables are initially recognised at their costs when the contractual right to receive cash or another financial asset from another entity is established.

Subsequent to initial recognition, other receivables are measured at amortised cost using the effective interest method.

# (e) Bills and acceptances payable

Bills and acceptances payable represent the Bank's own bills and acceptances rediscounted and outstanding in the market.

# (f) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Bank at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the end of the reporting period are retranslated to the functional currency at the exchange rate at that date.

Non-monetary assets and liabilities denominated in foreign currencies are not retranslated at the end of the reporting period, except for those that are measured at fair value which are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

Foreign currency differences arising on retranslation are recognised in profit or loss, except for differences arising on the retranslation of equity instruments at FVOCI or a financial instrument designated as a hedge of currency risk which are recognised in other comprehensive income.

#### (g) Leases

#### (i) Definition of a lease

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified assets. The Bank assesses whether:

 the contract involves the use of an identified asset - this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;

# (g) Leases (continued)

#### (i) Definition of a lease (continued)

- the customer has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the customer has the right to direct the use of the asset. The customer has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the customer has the right to direct the use of the asset if either the customer has the right to operate the asset; or the customer designed the asset in a way that predetermines how and for what purpose it will be used.

At inception or on reassessment of a contract that contains a lease component, the Bank allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties in which the Bank is a lessee, it has elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component.

### (ii) Recognition and initial measurement - As a lessee

The Bank recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Bank may use its incremental borrowing rate. Generally, the Bank uses its incremental borrowing rate as the discount rate.

# (g) Leases (continued)

#### (ii) Recognition and initial measurement - As a lessee (continued)

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments less any incentives receivable;
- amounts expected to be payable under a residual value guarantee;
- the exercise price under a purchase option that the Bank is reasonably certain to exercise; and
- penalties for early termination of a lease unless the Bank is reasonably certain not to terminate early.

The Bank excludes variable lease payments that are linked to future performance or usage of the underlying asset from the lease liability. Instead, these payments are recognised in profit or loss in the period in which the performance or use occurs.

The Bank has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term or remaining lease term of 12 months or less as at reporting date. The Bank recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

#### (iii) Subsequent measurement - As a lessee

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a revision of in-substance fixed lease payments, or if there is a change in the Bank's estimate of the amount expected to be payable under a residual value guarantee, or if the Bank changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

# (h) Employee benefits

#### (i) Short-term benefits

Short-term employee benefit obligations in respect of salaries, annual bonuses, paid annual leave and sick leave are measured on an undiscounted basis and are expensed as the related service is provided.

A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Bank has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

# (ii) State plans

The Bank contributes to the Employee Provident Fund, the national defined contribution plan, on a mandatory basis. The contributions are charged to profit or loss in the period to which they relate. Once the contributions have been paid, the Bank has no further payment obligation.

# (i) Provisions and contingent liabilities

A provision is recognised if, as a result of past event, the Bank has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

### (j) Revenue and other income

### (i) Interest income / financing income and expense

Interest income / financing income and expense is recognised in profit or loss using the effective interest / profit method.

The effective interest / profit rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or liability (or, where appropriate, a shorter period) to the carrying amount of the financial asset or liability. When calculating the effective interest rate, the Bank estimates future cash flows considering all contractual terms of the financial instrument, but not future credit losses.

The calculation of the effective interest / profit rate includes all fees paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or liability.

### (ii) Fees and commission

Fees and commission income and expenses that are integral to the effective interest / profit rate on a financial asset or financial liability are included in the measurement of the effective interest / profit rate.

Other fees and commission income, including account servicing fees, investment management fees, sales commission, placement fees and syndication fees are recognised as the related services are performed. If a loan commitment is not expected to result in the drawdown of a loan, then the related loan commitment fees are recognised on a straight line basis over the commitment period. When it is probable that a loan commitment will result in a specific lending arrangement, commitment fees are included in the measurement of the effective interest / profit rate.

Other fees and commission expense relate mainly to transaction and service fees, which are expensed as the services are received.

### (k) Tax expense

Tax expense comprises current and deferred tax. Tax expense is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or other comprehensive income.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statement of financial position and their tax bases. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill, the initial recognition of assets or liabilities in a transaction that is not a business combination, and that affects neither accounting, nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to apply to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that the future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

### (I) Earnings per ordinary share

Earnings per ordinary share is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the period.

### (m) Fair value measurement

Fair value of an asset or a liability, except for share-based payment and lease transactions, is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When measuring the fair value of an asset or a liability, the Bank uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation technique as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Bank can access at the measurement date.
- Level 2: inputs other than quoted prices included with Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: unobservable inputs for the asset or liability.

The Bank recognises transfers between levels of the fair value hierarchy as of the date of the event or change in circumstances that caused the transfers.

#### (n) Impairment of other assets

The carrying amounts of other assets (except for deferred tax assets) are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets (or cash-generating units).

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs of disposal. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

An impairment loss is recognised if the carrying amount of an asset or its related cashgenerating unit exceeds its estimated recoverable amount.

### (n) Impairment of other assets (continued)

Impairment losses are recognised in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amounts of the assets in the cash-generating unit (or a group of cash-generating units) on a *pro rata* basis.

In respect of other assets, impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. Reversals of impairment losses are credited to profit or loss in the financial year in which the reversals are recognised.

### 3. Cash and short-term funds

	2023 RM'000	2022 RM'000
Cash and balances with banks and other financial institutions  Money at call and deposit placements maturing within one month	117,474 5,794,282	92,727 4,628,302

Less: Allowance for expected credit losses ("ECL")	(2,515)	(905)
	5,909,241	4,720,124

### Movement in allowance for ECL on cash and short-term funds

	12-month ECL (Stage 1) RM'000	Lifetime ECL not credit impaired (Stage 2) RM'000	Lifetime ECL credit impaired (Stage 3) RM'000	Total RM'000
At 1 April 2022	905	-	-	905
Charge to profit or loss				
- Increase in ECL	1,610	-	-	1,610
At 31 March 2023	2,515	-	-	2,515
At 1 April 2021 Charge to profit or loss	1,978	2,365	-	4,343
- Decrease in ECL	(1,073)	(2,365)	-	(3,438)
At 31 March 2022	905	-	-	905

### 4. Deposits and placements with banks and other financial institutions

	2023	2022 PM1000
	RM'000	RM'000
Money at call and deposit placements maturing more than		
one month	1,968,874	546,560
Less: Allowance for ECL	(1,521)	(325)
	1,967,353	546,235

Movement in allowance for ECL on deposits and placements with banks and other financial institutions

	12-month ECL (Stage 1) RM'000	Lifetime ECL not credit impaired (Stage 2) RM'000	Lifetime ECL credit impaired (Stage 3) RM'000	Total RM'000
At 1 April 2022 Charge to profit or loss	325	-	-	325
- Increase in ECL	1,196	-	-	1,196
At 31 March 2023	1,521	-	-	1,521
At 1 April 2021 Charge to profit or loss	1,212	1,430	-	2,642
- Decrease in ECL	(887)	(1,430)	-	(2,317)
At 31 March 2022	325	-	-	325

### 5. Debt instruments at fair value through other comprehensive income ("FVOCI")

	2023 RM'000	2022 RM'000
At fair value		
Negotiable Instruments of Deposits	502,348	303,014
Malaysian Government Securities	20,116	-
Malaysian Government Investment Issues	181,229	182,978
	703,693	485,992

### Movement in allowance for ECL on debt instruments measured at FVOCI

	12-month ECL (Stage 1) RM'000	Lifetime ECL not credit impaired (Stage 2) RM'000	Lifetime ECL credit impaired (Stage 3) RM'000	Total RM'000
At 1 April 2022	226	-	-	226
- Increase in ECL	468	-	-	468
At 31 March 2023	694	-	-	694
At 1 April 2021	36	831	-	867
- Increase/(Decrease) in ECL	190	(831)	-	(641)
At 31 March 2022	226	-	-	226

The carrying amount of a debt instrument measured at FVOCI is its fair value. Accordingly, the recognition of an impairment loss does not affect the carrying amount of those assets, but is reflected as a debit to profit or loss and credit to other comprehensive income.

#### 10.2. Lease liabilities

The following table sets out a maturity analysis of lease liabilities, showing contractual undiscounted cash flows:

	2023 RM'000	2022 RM'000
Within one year	4,339	4,849
Between one and five years	243	4,088
	4,582	8,937
Lease liabilities included in the statement of financial position	4,490	8,536

### 10. Leases (continued)

### 10.3. Amount recognised in profit or loss

	2023 RM'000	2022 RM'000
Depreciation charge of right-of-use assets (Note 22)	4,356	4,620
Interest expense (Note 20)	229	433
10.4. Amount recognised in the statement of cash flows		
	2023 RM'000	2022 RM'000
Included in net cash from operating activities		
Payment relating to short-term leases	(938)	(613)
Interest expense on lease liabilities (Note 20)	(229)	(433)
Included in net cash from financing activities		
Payment of lease liabilities	(5,022)	(5,545)
Total cash outflow for leases	(6,189)	(6,591)

### 10.5. Leasing activities

### Motor vehicles

The Bank leases motor vehicles under finance lease for an agreed term of 24 months. At the end of the lease term, the Bank has no option to acquire the assets at a nominal price. There are no restrictive covenants imposed by the lease agreement and no arrangements have been entered into for contingent rental payments. Leases are either non-cancellable or may only be cancelled with the Bank bearing premature termination cost from the date of termination. These assets are presented in right-of-use assets.

#### 10. Leases (continued)

#### 10.5. Leasing activities (continued)

#### **Building leases**

The Bank leases premises to conduct its business. Rental contracts are typically made for fixed periods of different duration. Most leases include the option to renew the lease for an additional period which is mutually agreed by both parties before the end of the contract term.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements generally do not impose any covenants other than to keep those properties in a good state of repair and return the properties in their original condition at the end of the lease. Leases are either non-cancellable or may only be cancelled by giving written notice as mutually agreed by both parties in the agreement before the termination date.

The lease payments are adjusted upon renewal of the lease contract, subject to mutual agreement by both parties or current market rates.

The Bank and its lessor agreed on 27 December 2021 to terminate the lease of one floor starting on 30 June 2022.

#### Office equipment

The Bank leases office equipment under finance lease. At the end of the lease term, the Bank has the option to acquire the assets at a nominal price deemed to be a bargain purchase option. There are no restrictive covenants imposed by the lease agreement and no arrangements have been entered into for contingent rental payments. These assets are presented in right-of-use assets.

### 11. Tax recoverable

Tax recoverable is subject to approval by the Inland Revenue Board of Malaysia.

### 12. Deposits from customers

	2023	2022

(Note 26)

### 17. Share capital

	Amount 2023 RM'000	Number of shares 2023 ('000)	Amount 2022 RM'000	Number of shares 2022 ('000)
Ordinary shares Issued and fully paid up shares with no par value classified as equity				
instruments : At beginning / end of the year	2,452,605	2,452,605	2,452,605	2,452,605

The holders of ordinary shares are entitled to receive dividends as and when declared by the Bank, after obtaining the regulatory approval from Bank Negara Malaysia prior to the declaration of dividends.

All ordinary shares carry one vote per share at meetings of the Bank and rank equally with regards to the Bank's residual assets.

#### 18. Reserves

	Note	2023 RM'000	2022 RM'000
Non-distributable:			
Fair value reserve	18.1	2,397	2,125
Regulatory reserve	18.2	143,570	143,570
	_	145,967	145,695
Distributable:			
Retained earnings		1,288,107	1,086,968
	<u>-</u>	1,434,074	1,232,663

#### 18.1 Fair value reserve

Fair value reserve relates to the cumulative fair value changes of financial assets measured at fair value through other comprehensive income and its corresponding effect on deferred tax.

### 18.2 Regulatory reserve

The regulatory reserve is maintained in compliance with the requirements under BNM's policy document on Financial Reporting to maintain, in aggregate, impairment allowance for non-credit exposures (Stage 1 and Stage 2 ECL) and regulatory reserves of no less than 1% of total credit exposures, net of impairment allowance for credit-impaired exposures.

#### 19. Interest income

2023 RM'000	2022 RM'000
432,163	211,956
63,392	18,018
193,074	68,561
14,560	12,381
703,189	310,916
	<b>RM'000</b> 432,163 63,392  193,074 14,560

The amounts reported above include interest income calculated using the effective interest rate method that relate to the following:

	2023	2022
	RM'000	RM'000
Financial assets measured at amortised cost	688,629	298,535
Financial assets measured at FVOCI	14,560	12,381
Interest income from financial assets not measured at FVTPL	703,189	310,916

### 20. Interest expense

	2023 RM'000	2022 RM'000
Deposits from customers	384,178	103,161
Deposits and placements of banks and other financial institutions	58,280	4,388
Lease liabilities	229	433
Others	4	3
	442,691	107,985

The amounts reported above are interest expense calculated using the effective interest rate method that relates to financial liabilities measured at amortised cost.

# 21. Other operating income

	2023 RM'000	2022 RM'000
Fee and commission income		
- Service charges and guarantee fees	1,969	1,696
- Loan related fees	13,078	15,568
- Commitment fees	3,660	2,804
	18,707	20,068

		_	, i, <del>T</del> JU	30,043

### 26. Tax expense (continued)

Income tax is calculated at the Malaysian statutory rate of 24% of the estimated chargeable profit for the financial year. Included in prior year tax was prosperity tax (or also known as "Cukai Makmur") as announced in the Budget 2022, a one-off tax measure whereby companies with chargeable income above RM100 million were taxed at a rate of 33% and the income below and equal RM100 million were taxed at the statutory tax rate of 24% for year of assessment ("YA") 2022.

### 27. Earnings per ordinary share

### Basic earnings per ordinary share

The calculation of the basic earnings per ordinary share for the year ended 31 March 2023 was based on the profit attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding during the financial year:

	2023 RM'000	2022 RM'000
Net profit attributable to ordinary shareholder	201,139	177,374
	2023 Number ('000)	2022 Number ('000)
Total number of ordinary shares outstanding	2,452,605	2,452,605
Basic earnings per ordinary shares (sen)	8.20	7.23

The Bank has not presented diluted earnings per ordinary share in the current financial year as the Bank does not have dilutive instruments.

### 28. Related parties

#### Identity of related parties

For the purposes of these financial statements, parties are considered to be related to the Bank if the Bank has the ability, directly or indirectly, to control or jointly control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Bank and the party are subject to common control. Related parties may be individuals or other entities.

Related parties also include key management personnel defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Bank either directly or indirectly. Key management personnel include all the Directors of the Bank, and certain members of senior management of the Bank.

(d) The key management personnel compensations are as follows (continued):

Other key management personnel comprise persons other than the Directors of the Bank, having authority and responsibility for planning, directing and controlling the activities of the Bank either directly or indirectly.

### 29. Credit exposures to connected parties

Bank Negara Malaysia's Guidelines on Credit Transactions and Exposures with Connected Parties came into effect in October 2008. The credit exposures of the Bank to connected parties are as follows:

	2023 RM'000	2022 RM'000
Aggregate value of outstanding credit exposures to connected parties	258,775	578,301
As a percentage of total credit exposure	0.82%	2.13%

There are currently no exposures to connected parties which are classified as impaired.

### 30. Commitments and contingencies

In the ordinary course of business, the Bank makes various commitments and incurs certain contingent liabilities with legal recourse to its customers. No material losses are anticipated as a result of these transactions.

The commitments and contingencies are as follows:

		Credit	Risk-
	Principal	equivalent	weighted
	amount	amount *	assets
2023	RM'000	RM'000	RM'000
Transaction related contingent items	460,598	225,575	225,575
Short-term self liquidating trade-related contingencies	478,413	93,806	93,806
Foreign exchange related contracts:			
- Less than one year	8,285,597	241,617	167,461
- One year to less than five years	10,475,132	1,468,865	876,433
- Five years and above	573,115	108,756	82,840
Interest / Profit rate related contracts			
- Less than one year	1,065,117	3,211	2,513
- One year to less than five years	1,445,977	80,854	50,085
- Five years and above	218,978	41,477	29,498
Other commitments, such as formal standby facilities			
and credit lines, with an original maturity of up to			
one year	995,271	198,909	173,196
Other commitments, such as formal standby facilities			
and credit lines, with an original maturity of over			
one year	9,159,028	4,578,779	4,406,016
Total	33,157,226	7,041,849	6,107,423

<sup>\*</sup> The credit equivalent amount is arrived at using the credit conversion factor as per Bank Negara Malaysia Guidelines.

#### 32. Financial risk management

The Bank adopts the Basel II policies to establish sound risk management practices with the proper risk management discipline, practices and processes.

Currently, the Bank is in compliance with the regulatory standards under the Basel II Pillar 1. The Bank is also in compliance with the Basel II Pillar 2 that involves self-assessment exercise of the level of capital required to be held and Basel II Pillar 3, which is related to market discipline and disclosure requirements.

The Bank has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk
- Operational risk

The Board of Directors has overall responsibility for the establishment and oversight of the Bank's risk management framework. The Board has established BRMC, which are responsible for developing the risk management policies and assessing the implementation of risk management by the management of the Bank. The Bank has also established the Risk Management Committee ("RMC") as one of the management committees to formulate the policies, procedures and risk limits and conduct periodical monitoring on risk exposure, risk portfolio and risk management activities.

### (a) Credit risk

Credit risk is the risk of a financial loss to the Bank if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Bank's exposure to credit risk arises principally from loans and advances to customers, placements with other banks, investment in debt securities, derivative financial assets and other receivables.

#### **Credit Risk Management**

Integral to the management of credit risk, the Bank has credit policies and procedures in place to identify, measure and manage credit risk. The Bank continually monitors the exposure to credit risk on an on going basis and identifies emerging risks to formulate appropriate mitigation actions.

The Bank monitors its credit concentration risk from a single counterparty exposure, large exposure or from other portfolio concentrations by setting an exposure limits on customers, customer group, industries, products, asset quality etc.

Credit evaluations are required to be performed on customers requiring credit by the business managers and credit analyst in the first line of defence function with independent risk assessment and approval roles in the second line of defence function which are clearly defined and segregated.

### (a) Credit risk (continued)

#### **Credit Risk Governance**

The Bank has established Credit Committee as one of the management committees with the following objectives:

- (i) to review, analyse and endorse or approve credit proposal by ensuring approvals are granted within the Bank's risk appetite as well as effective credit limit control and monitoring; and
- (ii) the review and approvals are guided by credit policies and procedures which are reviewed periodically to ensure their continued relevance to the Bank's business strategy and the business environment.

The RMC conducts periodical monitoring on credit exposure trend, asset quality by obligor grading and its credit cost ratio in relation to the probability of default as well as default or impaired loans ratio, portfolio concentration analysis and credit related limits control such as single counterparty exposure limit, large loan limit, exposure to connected parties, product concentration limits and sectorial limits.

As at the end of the reporting period, the maximum exposure to credit risk arising from loans, advances and receivables are represented by the carrying amounts of cash and short-term funds, deposits and placements with banks and other financial institutions, debt instruments measured at FVOCI and loans, advances and financing and other assets as shown in Notes 3, 4, 5, 6 and 7 to the financial statements.

The Bank has taken reasonable steps to ensure that loans, advances, investments and receivables that are neither past due nor impaired are stated at their realisable values. A significant portion of these loans, advances, investments and receivables are regular customers or counterparties that have been transacting with the Bank.

### (a) Credit risk (continued)

#### (i) Maximum exposure to credit risk

The following tables present the Bank's maximum exposure to credit risk of its on-balance sheet and off-balance sheet financial instruments at 31 March 2023 and 31 March 2022, before taking into account any collateral held or other credit enhancements. For on-balance sheet financial instruments, the maximum exposure to credit risk is the carrying amount reported on the statement of financial position. For off-balance sheet financial instruments, the maximum exposure to credit risk represented the contractual nominal amount.

	2023	2022
	RM'000	RM'000
On-balance sheet assets		
Cash and short-term funds	5,909,241	4,720,124

ECL	(4,706)	(29,979)	(55,218)	(89,903)
_	10,534,690	3,901,856	352	14,436,898

### (vi) Loans and advances neither past due nor impaired and impaired

Analysis of gross loans and advances based on the Bank's internal loan classification is as follows:

	2023			
	Stage 1 RM'000	Stage 2 RM'000	Stage 3 RM'000	Total RM'000
Loan classification				
Good	9,487,081	5,740,247	-	15,227,328
Closely monitored	-	1,534	-	1,534
Impaired	-	-	51,065	51,065
	9,487,081	5,741,781	51,065	15,279,927
		2022		

		2022			
	Stage 1 RM'000	Stage 2 RM'000	Stage 3 RM'000	Total RM'000	
Loan classification					
Good	10,539,396	3,657,179	-	14,196,575	
Closely monitored	-	274,656	-	274,656	
Impaired		-	55,570	55,570	
	10,539,396	3,931,835	55,570	14,526,801	

# (a) Credit risk (continued)

# (vi) Loans and advances neither past due nor impaired and impaired (continued)

The definition of loan classification is as follows:

	Cassincation is as follows.
Classification	Definition
Good	Loans, advances and financing which have never been past due in the last 6 months, or never been restructured or rescheduled before.
Closely monitored	Loans, advances and financing where there is uncertainty in repayment due to borrowers deteriorated credit standing or business environment.
Impaired	Loans, advances and financing which have been more than 90 days past due or more or an occurrence of weaknesses in the credit facility that renders the facility to be credit impaired.

### (a) Credit risk (continued)

#### (vii) Amount arising from MFRS 9 Expected Credit Losses ("ECL")

ECL under MFRS 9 applies to all financial assets held at amortised cost, fair value through other comprehensive income ("FVOCI"), credit commitments and contingencies.

Instrument	Location of ECL
Financial assets held at amortised cost	Loss provisions: netted against gross
	carrying value
Financial assets held at FVOCI - investment	Other comprehensive income (FVOCI
securities	fair value reserve) ^
Undrawn financing commitments and	Provisions for liability and charges *
financial guarantees - credit commitments	
and contingencies	

- ^ Financial assets classified as FVOCI are held at fair value on the face of the statement of financial position. The ECL attributed to these instruments is held as a separate reserve within OCI and is recycled to profit or loss along with any fair value measurement gains or losses held within FVOCI when the applicable instruments are derecognised.
- \* ECL on undrawn financing commitments and financial guarantees is recognised as a liability provision. Where a financial instrument includes both a financing and undrawn commitment and it is not possible to separately identify the ECL on these components, the ECL amount on the financing commitment is recognised together with the ECL amount on the financial asset. To the extent the combined ECL exceeds the gross carrying amount of the financial asset, the ECL is recognised as a liability provision.

As required under MFRS 9, the measurement of ECL includes the current and forecast of future economic conditions, where the Malaysian relevant Macroeconomic Variables ("MEVs") are considered for the forward-looking estimation. Measurement of ECL reflects an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes.

As at financial year ended 31 March 2023, the selected MEVs that are material and relevant to the Bank's portfolio are GDP growth and FTSE Bursa Malaysia KLCI Index. Forecasted MEVs are used for the forward-looking adjustment to the estimated ECL. A weighting is applied to forward-looking macro-economic scenarios within the ECL estimate.

# (a) Credit risk (continued)

### (vii) Amount arising from MFRS 9 ECL (continued)

The economic scenarios used include the following:

**2023** Baseline

	2023	2024	2025	2026	2027
GDP change	2.90	4.40	4.43	4.77	4.72
KLCI Index	1,441.96	1,529.23	1,789.92	2,005.68	2,138.02

Upside: stronger near-term growth with 10% probability economy perform better

	2023	2024	2025	2026	2027
GDP change	4.64	6.65	3.91	4.20	5.02
KLCI Index	1,549.74	1,829.43	2,029.24	2,153.82	2,260.23

Downside: moderate recession with 10% probability economy will be worse

	2023	2024	2025	2026	2027
GDP change	(2.26)	1.61	5.88	5.29	4.58

Upside: stronger near-term growth with 10% probability economy perform better

	2022	2023	2024	2025	2026
GDP change	7.41	7.09	4.51	4.31	4.98
KLCI Index	1,659.81	1,753.02	1,718.67	1,832.10	1,998.20

Downside: moderate recession with 10% probability economy will be worse

	2022	2023	2024	2025	2026
GDP change	0.69	2.67	6.49	5.40	4.53
KLCI Index	1,284.36	1,168.60	1,243.24	1,409.02	1,581.69

### (a) Credit risk (continued)

### (viii) COVID-19 specific disclosures

### **Exposures to COVID-19 impacted sectors**

Loans, advances and financing

	On-balance sheet (net o	of impairment)
	2023 RM'000	2022 RM'000
Manufacturing	2,613,686	2,735,361
Real estate*	1,927,873	2,547,312
Wholesale and retail trade, restaurants and hotels*	1,179,817	1,121,151
Mining and quarrying *	978,594	969,562
	6,699,970	7,373,386

<sup>\*</sup> There were reclassifications from 'Other sectors' to 'Mining and quarrying', 'Real estate', 'Education, health and other services' and 'Wholesale and retail trade, restaurants and hotels' and from 'Transport, storage and communication' and 'Electricity, gas and water' to 'Mining and quarrying'.

The exposures to COVID-19 impacted sectors were based on the industries that are significantly or largely impacted by the COVID-19 pandemic as at 31 March 2023. The industries and its severity of impact were identified based on the impact to the credit cost for each industry. The industries that were having more than 5% exposure in significant and large impacted COVID-19 sectors as compared to the total portfolio were Manufacturing, Real Estate, Wholesale and Retail Trade, Restaurants and Hotels as well as Mining and Quarrying with the largest exposure stood at 12.8%. Overall exposure towards significantly and largely impacted COVID-19 sectors had reduced.

### **COVID-19 customer relief and support measures**

There is no stage 1 and stage 2 borrowers under the repayment assistance or moratorium as at 31 March 2023 and 31 March 2022.

### (a) Credit risk (continued)

### (viii) COVID-19 specific disclosures (continued)

#### Overlays and adjustments for expected credit losses amid COVID-19 environment

As the current MFRS 9 models are not expected to generate levels of ECL with sufficient reliability in view of the unprecedented and on-going COVID-19 pandemic, management overlays adjustments have been applied to determine a sufficient overall level of ECL as at 31 March 2023.

These management overlays adjustments were made at portfolio level by a one notch downgrade of accounts within the identified sectors which are significantly and largely impacted by the COVID-19 pandemic based on the impact to the credit cost for each industry.

The management overlays adjustments involved significant level of judgement and reflect the management's views of possible severities of the pandemic and paths of recovery in the forward-looking assessment for ECL estimation purposes.

The borrowers and customers who have received repayment support remain in their existing stages unless they have been individually identified as not viable or with subsequent indicators of significant increase in credit risk from each of their pre-COVID-19 status.

### (b) Liquidity risk

Liquidity risk arises when a bank is not able to refinance its assets upon liabilities due, for any reason, which can be at macro-level, affecting most or all the market participants, or names specific to the bank.

Liquidity risk is managed through the Bank's Assets and Liabilities Management Committee ("ALCO"), which meets on a monthly basis. The ALCO is chaired by the CEO who is responsible for both the statutory and prudential liquidity.

The primary tools used to monitor the liquidity risk are the Bank Negara Malaysia's Liquidity Coverage Ratio ("LCR") requirement and the internal liquidity risk management policy set by ALCO and Head Office. Under the LCR requirement, the Bank must ensure that there is sufficient high quality liquid assets ("HQLA") to cover potential net cash outflows for the next 30 days. While under the internal policy, among others, the Bank is guided by tight money gap limits for one day, two days, one week and one month periods. Adherence to these limits are monitored on daily basis and reported to the Management, Regional Office and Head Office. The money gap limits are as follows:

#### 2023

Internal Policy							
Money gaps limits (USD million)							
One	Two	One	One				
day	days	week	month				
-20	-30	-40	-100				

#### 2022

Internal Policy								
Money gaps limits (USD million)								
One	Two	One	One					
day	days	week	month					
-20	-30	-40	-100					

# (b) Liquidity risk (continued)

Cash flows payable by the Bank (for financial liabilities) based on remaining contractual maturity as at the financial year end, on an undiscounted basis are as follows:

	Carrying amount	Interest rate	Contractual cash flows	Under 3 months	3-12 months	1-2 years	2-5 years	> 5 years
2023	RM'000	%	RM'000	RM'000	RM'000	RM'000	RM'000	RM'000
Liabilities

#### (c) Market risk

Market risk is defined as the potential impact on the Bank's operating results resulting from changes in the market prices and rates. The Bank's market risks are categorised as:

- (i) Interest rate risk, the impact on the values of the Bank's derivatives and forward foreign exchange contracts arising from the movement of yield curves; and
- (ii) Foreign exchange risk, the impact on the values of the Bank's foreign currency exposures arising from the movement of the exchange rates.

ALCO is responsible to oversee the management of market risk for the Bank, which include ensuring compliance to the Bank's Market Risk Management Policy and Trading Book Policy.

The primary tools to control the market risks are the exposure (position) limits and the stop loss limits, implemented on portfolio basis and on individual dealer basis. Adherence to these limits is monitored and reported on daily basis to the Management, Regional Office and Head Office.

#### Interest rate risk management

Interest rate risk is defined as the potential impact on the Bank's earnings (i.e. the net interest income) and the net assets value resulting from a change in interest rates.

Interest rate risk is managed through the Bank's ALCO, which meets on a monthly basis. The committee is responsible to study the sensitivity of the net interest income against change in interest rates and subsequently, to determine the Bank's policy on balance sheet management. The committee also monitors the impact of the change in interest rates on the net assets value.

The primary tool used for monitoring the interest rate risk impact on the earnings is the re-pricing gap analysis. In this analysis, the re-price dates of rate sensitive assets are compared against the re-price dates of rate sensitive liabilities. A positive gap position indicates that more assets are available to be re-priced than liabilities; hence, an increase in the interest rates will positively impact the Bank's net interest income.

In addition to monitoring the assets and liabilities gap, the Bank also uses interest rate derivatives (i.e. interest rate swaps) to mitigate the interest rate risk impact on the earnings.

The primary tool used to monitor the interest rate risk impact on the net assets value is the basis point value ("BPV") analysis and economic value of equity ("EVE") analysis. The Bank's BPV positions are monitored on daily basis against the approved BPV limits as set by the Head Office based on recommendation by ALCO, whereas, the EVE is monitored and reported to ALCO on a monthly basis.

#### (c) Market risk (continued)

#### Interest rate risk management (continued)

Interest rate benchmark reform

A fundamental reform of major interest rate benchmark is being undertaken globally, replacing some interbank offered rates ("IBORs") with alternative nearly risk free rates (referred to as "IBOR reform"). The Bank has exposure to certain IBORs on its financial instruments that are being reformed as part of these market wide initiatives.

The main risk to which the Bank has been exposed as a result of IBOR reform are operational. The transition from IBOR to Alternative Reference Rate ("ARR") products or other types of base rates will have significant impact on the Bank arising from legal implications for existing derivatives and loan contracts referenced to IBOR, adjustments to accounting and valuation approaches, and system recalibration and reconfiguration.

SMFG group ("the Group") put in place a Group-wide IBOR transition project team in May 2019 involving all the Group's business lines and functions. This project team's objective is providing smooth and efficient global coordination for the transition from IBOR to alternative reference rate, taking into consideration the common objective and achievement globally.

In Malaysia, in Quarter 3 of Financial Year 2019, the Bank set up the IBOR Transition Project Working Group ("PWG"), which consists of senior leaders from various functions across including Legal, Finance, Market Adoption, Product, Operations, Systems, Risk, Reporting and Compliance, to address the Bank's readiness for the IBOR Reform by collaborating with the Group.

Since the establishment of the PWG, the Bank has been planning and laying the foundations to ensure a smooth IBOR Transition within the organisation and for its clients. These efforts include reviewing affected legal contracts, staff training, client engagement and ensuring systems and operational readiness to offer RFR products. The Bank actively monitors the developments in the industry in order to align itself to global market practices. The Board is updated on the progress of the Bank's IBOR Transition periodically.

IBOR reform exposes the Bank to various risks, which the PWG is managing and monitoring closely. These risks include but are not limited to the following:

- Conduct risk arising from discussions with clients and market counterparties due to the amendments required to existing contracts necessary to affect IBOR reform;
- Financial risk to the Bank and its clients that markets are disrupted due to IBOR reform giving rise to financial losses;
- Operational risk arising from changes to the Bank's IT systems and processes, also the risk of payments being disrupted if an IBOR ceases to be available;

### (c) Market risk (continued)

### Interest rate risk management (continued)

Interest rate benchmark reform (continued)

IBOR reform exposes the Bank to various risks, which the PWG is managing and monitoring closely. These risks include but are not limited to the following (continued):

- Accounting risk if the Bank's hedging relationships fail and from unrepresentative income statement volatility as financial instruments transition to RFRs; and
- Legal and Compliance risk of litigation due to transition value transfer between the Bank and its customers and counterparties.

At 31 March 2023, those risks highlighted above have not materialised. The Bank has completed transition from JPY LIBOR and GBP LIBOR to alternative reference rates and key system developments as originally scheduled. Additionally, the Bank has ceased entering into new contracts referencing USD LIBOR by 31 December 2021, other than for limited circumstances in accordance with the regulatory guidance. With respect to the transition of financial instruments referencing the USD LIBOR settings ceasing as of 30 June 2023, the Bank has been engaging with customers to reform the remaining exposure to eligible alternate rates by executing additional supplementary agreement/letter.

On 24 September 2021, in line with the IBOR Reform, BNM introduced the Malaysia Overnight Rate ("MYOR") as the new ARR, which will run in parallel with the existing KLIBOR, providing the market with the flexibility to choose either MYOR or KLIBOR as the reference rate for pricing of financial instruments. The publication of 2-month and 12-month KLIBOR tenors, which are the least referenced rates in the market for financial contracts was discontinued on 1 January 2023. The Malaysia Islamic Overnight Rate ("MYOR-i") was launched by BNM on 25 March 2022 to replace the Kuala Lumpur Islamic Reference Rate ("KLIRR").

As at 31 March 2023, the Bank's exposures subject to IBOR reform are not significant through their lending to customers, borrowings from banks and derivative contracts held for hedging purposes.

#### Foreign exchange risk management

Foreign exchange risk arises from exchange rate movements, which affects the profit of the Bank from its foreign exchange open positions taken from time to time. This risk is principally managed by setting predetermined limits on open foreign exchange positions and the setting predetermined limits on open foreign exchange positions and the setting and monitoring of cut-loss mechanisms. The Bank enters into foreign exchange related derivatives, namely spot and forward contracts, as part of its strategies to manage foreign exchange risk.

### (c) Market risk (continued)

### **Currency risk (continued)**

Stress test has been performed on foreign currency trading positions to assess impact of a 10% strengthening/(weakening) in Ringgit Malaysia exchange rates, adjusted to incorporate impact of correlation between different currencies. The impact has been assessed to be an increase/(decrease) in profit before taxation and equity by the amount shown below. This analysis assumes that all variables, in particular interest rates, remained constant.

	202	23	2022			
Type of currency	(Decrease)/ increase in profit before taxation RM'000	(Decrease)/ increase in equity RM'000	Increase in profit before taxation RM'000	Increase in equity RM'000

	(44,748)	(34,009)	47,549	36,137		

#### Fair value hedge

Fair value hedge included within hedging derivatives are derivatives where the Bank apply hedge accounting. Fair value hedge is used by the Bank to protect against changes in the fair value of Loans, advances and financing, due to movements in interest rates and foreign currency. The financial instruments used by the Bank to hedge the Bank's interest rate risk and foreign currency are Cross Currency Swap and Interest Rate Swap.

The effectiveness of the hedging relationship is tested prospectively and retrospectively at each reporting date. The hedging relationship was highly effective for the total hedging period and as of the reporting date. Consequently, the unrealised loss totalling RM15,317,000 (2022: unrealised loss RM18,219,000) was recognised against other operating income in the financial statements.

### (d) Operational risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, human behaviour and systems, or from external events. Operational risk is inherent in each of the Bank's business activities. It includes risks such as fraud, physical damage, business interruption, transaction failures, legal and regulatory breaches, shariah non-compliance and employee health and safety hazards. Operational risk may result in direct financial loss as well as indirect financial losses to the Bank.

Operational risks are managed and controlled within the individual business lines. The RMC monitors the predetermined items to assess the trend of operational risks.

#### The calculation of value equivalent to operational risk-weighted asset

The Bank currently uses Basic Indicator Approach ("BIA") to calculate its value equivalent to operational risk-weighted assets as at 31 March 2023.

#### 33. Fair value measurements

#### **Recognised financial instruments**

The estimated fair values of the financial assets and financial liabilities carried on the statement of financial position as at 31 March (excluding those short-term / on demand financial assets and financial liabilities where the carrying amounts are deemed reasonable approximation of their fair values) are as follows:

	Carrying a	amount	Fair value		
	2023	2022	2023	2022	
	RM'000	RM'000	RM'000	RM'000

- \* The expected credit losses impairment provision of the Bank is not included in the carrying amount.
- \*\* The contractual notional amount of cross currency swaps held for hedging which is based on IBOR is RM381,019,000 (2022: RM377,896,000). The contractual notional amount of interest rate swaps held for hedging which is based on IBOR is RM722,009,000 (2022: RM747,157,000).

#### Methods and assumptions

The methods and assumptions used in estimating the fair values of financial instruments are as follows:

#### (a) Financial investments measured at FVOCI

The estimated fair value is based on quoted or observable market prices at the statement of financial position date. Where such quoted or observable market prices are not available, the fair value is estimated using pricing models or discounted cash flow techniques. Where discounted cash flow techniques are used, the estimated future cash flows are discounted using the prevailing market rates for similar instruments at the reporting date.

#### (b) Loans, advances and financing

The fair values of fixed rate loans with remaining maturity of less than one year and variable rate loans are estimated to approximate their carrying values. For fixed rate loans with maturity of more than one year, the fair values are estimated based on expected future cash flows of contractual instalment payments and discounted at prevailing rates at the reporting date offered for similar loans.

#### **Methods and assumptions (continued)**

#### (c) Derivative financial instruments

Fair values of derivative instruments are normally zero or negligible at inception and the subsequent change in value is financial assets (favourable) or financial liabilities (unfavourable) as a result of fluctuations in market interest rates or foreign exchange rates relative to their terms. The fair values of the Bank's derivative instruments are estimated by reference to observable market prices. Internal models are used where no market price is available.

#### Fair value hierarchy

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements.

	Level 1	Level 2	Level 3
Fair value determined using	Unadjusted quoted prices in an active market for identical assets and liabilities	Valuation models with directly or indirectly market observable inputs	Valuation models using significant non-market observable inputs
Type of financial assets	Actively traded corporate, government and government agency securities	Corporate and other government bonds and loans	Unquoted equity investments
	Actively traded derivatives	Over-the- counter ("OTC") derivatives	Corporate bonds in non- liquid market
	-	-	Loans, advances and financing
Type of financial liabilities	-	OTC derivatives	-

#### 34. Offsetting of financial assets and financial liabilities

The Bank enters into derivative transactions under International Swaps and Derivatives Association ("ISDA") master netting agreements. In general, under such agreements the amounts owed by each counterparty on a single day in respect of all transactions outstanding in the same currency are aggregated into a single net amount that is payable by one party to other. In certain circumstances e.g. when a credit event such as a default occurs, all outstanding agreements are terminated, the termination value is assessed and only a single net amount is payable in settlement of all transactions.

The ISDA agreements do not meet the criteria for offsetting in the statement of financial position. This is because the Bank currently does not have any legally enforceable right to offset recognised amounts, because the right to offset is enforceable only on the occurrence of future events such as default on the Bank's commitments or other credit events.

The following table sets out the carrying amounts of recognised financial instruments that are subject to the above agreements.

## 34. Offsetting of financial assets and financial liabilities (continued)

#### 36. Capital management

The objective of the Bank's capital management policy is to maintain an adequate level of capital to support business growth strategies under an acceptable risk framework, and to meet its regulatory minimum requirement. The Bank's capital management process includes analysis of the risk appetite and the capital requirement for the business growth and periodical monitoring of capital adequacy ratios.

The Bank's capital requirements and capital adequacy ratios, in accordance with Bank Negara Malaysia's Risk-Weighted Capital Adequacy Framework ("RWCAF"): Standardised Approach for Credit Risk and Market Risk and Basic Indicator Approach for Operational Risk (Basel II) are disclosed in Note 35.

#### 37. The operations of International Currency Business Unit (ICBU)

The Bank had obtained approval from BNM to set up an International Currency Business Unit ("ICBU") to promote Islamic Banking business. The ICBU is permitted to conduct a wide range of Islamic banking business in international currencies other than Malaysian Ringgit and the currency of Israel as per the Guidelines on the Establishment of International Currency Business Unit issued by BNM.

The following breakdown shows the Bank's financing and advances and deposits from customers which are conducted through the ICBU.

#### (a) Financing and advances

	2023 RM'000	2022 RM'000
(i) By type:		
At amortised cost:		
Term financing		
- Syndicated Islamic financing	532,309	499,305
- Islamic term financing	426,216	642,674
Revolving credit-i	657,411	1,041,597
Gross financing and advances	1,615,936	2,183,576
Less: Allowance for ECL		
- 12-month ECL (Stage 1)	(538)	(671)
<ul> <li>Lifetime ECL not credit impaired (Stage 2)</li> </ul>	(5,789)	(6,323)
Net financing and advances	1,609,609	2,176,582
(ii) By contract:		
Murabahah	1,615,936	2,183,576
Gross financing and advances	1,615,936	2,183,576
(b) Deposits from customers		
	2023 RM'000	2022 RM'000
(i) Dutume and contract		
(i) By type and contract:		
At amortised cost:	44.225	2.002
Demand deposits - Qard	11,325 11,325	3,693 3,693
	11,323	3,093

#### 38. The operations of Islamic Banking Window

Islamic Banking Window ("IBW") was launched on 10 January 2023 after obtaining BNM approval to expand Islamic businesses in Malaysian Ringgit. This initiative is part of the Bank's strategy to grow Shariah compliant assets and complement ICBU offerings in Malaysia market. During the financial year, IBW offers financing products and the Bank embarks in expanding more products to serve customers better. All Islamic operations are supervised by the independent Shariah Committee and will be reported on annual basis.

The financial statement as at 31 March 2023 is summarised as follows:

#### STATEMENT OF FINANCIAL POSITION AS AT 31 MARCH 2023

	Note	2023 RM'000	2022 RM'000
Assets Cash and short-term funds	(a)	30,000	_
Total assets	(α)	30,000	
Liabilities and islamic banking funds Other liabilities	(b)	383	_
Total liabilities	` ,	383	-
Capital funds		29,617	
Islamic banking funds		29,617	-
Total liabilities and islamic banking funds		30,000	-

The operations of Islamic Banking is based on internal funding arrangement through Wakalah. Islamic Banking Window provides financing in Ringgit Malaysia through an internal Wakalah (agency) arrangement with Conventional banking. The financing is reported at the entity level. At the time of this report, the Wakalah amount is nil.

#### STATEMENT OF PROFIT OR LOSS AND OTHER COMPREHENSIVE INCOME FOR THE FINANCIAL YEAR ENDED 31 MARCH 2023

		2023	2022
	Note	RM'000	RM'000

# INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF SUMITOMO MITSUI BANKING CORPORATION MALAYSIA BERHAD

[Company No. 201001042446 (926374-U)] (Incorporated in Malaysia)

#### Report on the Audit of the Financial Statements

#### **Opinion**

We have audited the financial statements of Sumitomo Mitsui Banking Corporation Malaysia Berhad ("the Bank"), which comprise the statement of financial position as at 31 March 2023, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 45 to 162.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Bank as at 31 March 2023, and of its financial performance and its cash flows for the year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

#### **Basis for Opinion**

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our auditors' report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Bank in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

#### Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Bank are responsible for the other information. The other information comprises the information included in the Directors' Report and the Shariah Committee's Report but does not include the financial statements of the Bank and our auditors' report thereon.

Our opinion on the financial statements of the Bank does not cover the Directors' Report and the Shariah Committee's Report and we do not express any form of assurance conclusion thereon.

#### Sumitomo Mitsui Banking Corporation Malaysia Berhad

Company No. 201001042446 (926374-U) Independent Auditors' Report for the Financial Year Ended 31 March 2023

#### Information Other than the Financial Statements and Auditors' Report Thereon (continued)

In connection with our audit of the financial statements of the Bank, our responsibility is to read the Directors' Report and the Shariah Committee's Report and, in doing so, consider whether the Directors' Report and the Shariah Committee's Report are materially inconsistent with the financial statements of the Bank or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of the Directors' Report and the Shariah Committee's Report, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the Directors for the Financial Statements

The Directors of the Bank are responsible for the preparation of financial statements of the Bank that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Bank that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Bank, the Directors are responsible for assessing the ability of the Bank to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Bank or to cease operations, or have no realistic alternative but to do so.

#### **Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements of the Bank are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

 Identify and assess the risks of material misstatement of the financial statements of the Bank, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Sumitomo Mitsui Banking Corporation Malaysia Berhad

Company No. 201001042446 (926374-U) Independent Auditors' Report for the Financial Year Ended 31 March 2023

#### **Auditors' Responsibilities for the Audit of the Financial Statements (continued)**

- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the internal control of the Bank.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Bank to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Bank or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Bank, including the disclosures, and whether the financial statements of the Bank represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### **Other Matters**

This report is made solely to the members of the Bank, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.
