New Payee Check

Pre-registered Payee

Type: Optional

Mandatory

Mandatory with Data Combine function*

* Data combine function: During payment file import, SMAR&TS will use unique payee numbers in your payment files to retrieve payee information which have been pre-registered in SMAR&TS payee master.

Level of Approvers for approving Payees:

One-Time Password Token**

** Each user (including Operator, Approver and System Administrator) will need an One-Time Password Token in order to access the web-based version of SMAR&TS. The Token(s) for System Administrator(s) and Approver(s) will automatically be assigned by the Bank based on the User Information provided.

* Payroll transactions are excluded from the Service and we agree that you do not need to send payment advices, notifications, or summaries of such transactions. We shall not submit confidential payment instructions under the Service.

Authorized Signature(s) and Company Stamp

Debit Authorization for Subscription of SMAR&TS

The Customer hereby authorizes the Bank to debit the Bank Account No. _____ for :

- Initial registration fees of _____ on the _____ ; and
- Monthly subscription fees of _____ on the _____ of every month,
effective _____ .

Where there are insufficient funds standing to credit in the aforementioned account to effect the debit, the Customer authorises the Bank to set-off or transfer any sum standing to credit in any of the Customer's accounts (whether in Singapore or elsewhere) (whether matured or not) in or towards the satisfaction of any of the Borrower's liabilities (including but not limited to the fees hereabove). The Bank may do so notwithstanding that the balance in such account and the liabilities may not be expressed in the same currency, and the Bank is hereby authorised to effect any necessary conversions at the Bank's own rate of exchange then prevailing. For the avoidance of doubt, the Bank shall not be obliged to exercise any right given to it under this clause.

Terms and Conditions

¹ By having ticked against this box, the Customer agrees that such person shall become an Authorized Representative and the Bank is authorized to provide the respective passwords and security devices (if applicable) of the System Administrators and/or Approvers to (a) such System Administrator or Approver individually, or at the Bank's discretion (b) any or all of the Authorized Representatives.

² The Bank strongly recommends the user of separate email address for each System Administrator and Approver. This is to ensure the confidentiality of User passwords and to minimize the risk of unauthorized transactions. The Customer acknowledges that the Bank is not responsible or liable for any consequences that may arise if the Customer chooses to use a common email address.

For System Administrators and Approvers, the User Passwords will be divided into two parts and one part may be sent directly to the User's e-mail address. The Bank strongly recommends the user of personal e-mail address for each User, to ensure the confidentiality of the User passwords.

It is recommended that you restrict the access rights of each User on a "need-to-have" basis. As a best practice, no single person should be concurrently holding on to System Administrator, Approver and Operator User IDs.

User Name should be based on the actual name of the User. The Bank strongly discourages the adoption of pseudo names (for example, ABC001), as there is a risk that such User IDs may be shared or recycled.

³ Approval limit per value date applies to Fund Transfer, Fund Transfer (Local), Payroll and Trade Incoming Bills Acceptance / Settlement services, where applicable.

For the avoidance of doubt, any of the Customer's Service Options Form (and any amendment forms related thereto) quoting other Company ID will not affect or supersede this Service Options Form in any way whatsoever.

The Customer acknowledges that the Bank shall not be responsible or liable for any consequences that may arise due to the Customer's failure to follow any of the Bank's recommendations stated above.
